After line 1582, insert: 5

"Sec. 4928.664. (A) An electric services company may apply on
behalf of its customers for energy efficiency programs offered by
an electric distribution utility. 6 7 8

(B) An electric services company that has applied for a
program on behalf of a customer under division (A) of this section
may collect rebates under that program on behalf of the customer
upon producing evidence that the customer completed the program.
This evidence may be in the form of a product identification code,
a product serial number, an acknowledgment letter from the
customer, or similar evidence that proves installation or delivery
of a product. Once the evidence is produced, the electric
distribution utility shall send the rebate to the electric
services company or the customer, at the direction of the
customer. 9 10 11 12 13 14 15 16 17 18 19

(C) An electric distribution utility shall be entitled to 20
lost distribution revenue and full program costs. 21

(D) Not later than one hundred eighty days after the 22
effective date of this section, the public utilities commission 23
shall initiate an investigation to ensure that energy efficiency 24
programs are consistent with the requirements and permissive 25
provisions of this section. 26

(E) Not later than January 1, 2018, the commission shall 27
amend its rules to bring them into conformity with this section. 28

Sec. 4928.665. All energy savings from an energy efficiency 29
program shall be eligible for inclusion in any incentive 30
calculation by the public utilities commission. 31

Sec. 4928.666. For a customer to be eligible for a rebate 32
from an electric distribution utility, that customer shall be 33
located within the utility's service territory. 34

Sec. 4928.667. All parts of an energy efficiency program 35
transaction shall be shown to be cost effective, which shall be 36
determined by the public utilities commission." 37
