

To Whom It May Concern,

I wish to express my sincere support of H.B. 36 to protect our religious beliefs that a marriage is between one man and one woman. I pray for the protection of the beliefs in which this great country was founded by our forefathers. Religious people and organizations should NOT have to be forced to abide by things that are against our beliefs and the Word of God. We are "One Nation Under God" and if people would just read The Holy Bible and abide by it, then our country would not be in the sad shape it is in.

Thank you.
