Dear Legislative Leaders,

The Medina County Sheriff's Office has been the recipient of TCAP funding that has permitted us to reopen a closed pod, hire needed correction officers, add a clinician to our mental health and addiction services, and add Medical Assisted Treatment. We also receive funding via grants through our local ADAMH Board and our county commissioners. The above programming is combined with local faith based initiatives that are like minded. That makes it possible for us to join our county criminal justice continuum in a concerted effort to impact on recidivism and the opioid epidemic that is plaguing all counties in Ohio.

TCAP dollars play a key part in our effort. The flexibility of the dollars has permitted us work to fill gaps in services that we could not otherwise provide.

Respectfully,

A handwritten signature in black ink that reads 'Tom Miller'.
