Representative Barnes,

In 2007 I was charged with Trafficking in drugs. I am writing this letter in concerns of the legislative your sponsoring. After being charged with trafficking in a plea agreement my license was suspended for five years with a substantial fine.

I guess what Im saying is I have made mistakes in my life however I am in process of changing my life and to make a responsible change having my license would give me the best opportunity to live a productive life. I support you 100%! If the fines and penalties got lightened up it would help assist me in my process in change in my life.

MR. J. Tallman
