

For Mr. Jack Brubaker,

Joe Rieger, 443 McGuerin Street, Dayton, Ohio 45431. I intend to speak in room 114 at the State House on Thursday 24 May 2018 beginning 9AM to end time. Here is my speech I can complete this in about 8-10 minutes. Please put me down as a guest speaker. My phone number is 937-221-8780, Email [joerieger@outlook.com](mailto:joerieger@outlook.com). Jack I am not hear for political decorum so my language is the best I can provide and I don't want it changed.

Speech Start:

Hello Chair Woman Anielski, Vice Chair Hambley, Rankin Member Holmes, and Members of State & Local Government Committee. Thank you for this opportunity as a gun owner, church goer, fisherman, and father who resides his entire life in the state of Ohio to oppose vehemently HB 585. If you so choose to ask questions please hold questions to end of my speech.

Star Chamber court hearings will put some democrat judges or gun grabber republicans on the court and abortionist are free to kill but a gun owner you must criminalize and that is unconstitutional and racist, and sexist and a violation of the equal protection laws. Truly not all Americans are created equal according to HB 585.

Abortionist according to Roe Vs Wade Thurgood Marshall said privacy of the woman is more important than life of the child. The fetus is not viable at a certain time according to a federal judge in Cincinnati Ohio. Last time I looked 9 Months after conception a crying baby usually pops out of the womb. So somehow a fetus is dead/not viable until it's born/outside the womb according to gun grabbers and most democrats. That is simply out of kilter with reality. No, the fetus is dead once the deadly tools of abortion is used to kill it. I don't see HB 585 banning any of the tools of abortion, suction tools, etc

The 2<sup>nd</sup> Amendment is part of the US Constitution, Life, Liberty, and Pursuit of property is part of the Bill of Rights. Right to kill by abortion is an abortionist liberty according to Thurgood Marshall and Roe Vs Wade, but guns owners liberty extends only as far as Governor Kasich and his gun grabbing hands will allow it to extend. Kasich left the Republican Party in my own words and I say good riddance. Kasich wants to run for POTUS with Governor Hickenlooper the Colorado gun grabber.

Gun owners have no rights to privacy like the abortionist. Always a Governor, a democrat or even Mr. Henne in my humble opinion who wants to reach into your home and regulate you by invading your gun owner privacy and your humble abode. This is fascist and something the anti-gun politicians known to world history have done (King George, Hitler, Stalin, Mao, Marx, Lenin). Do you want your name on this list, I would hope not.

When it comes to HB 585 you are guilty until proven innocent. Is the Governor a law maker or a law breaker, that is a good question and does any of the HB 585 know what due process is. Democrats want due process applied to all black suspects but not applied to Ohio and USA gun owners.

Abortion is a private matter the killing of a child alive but unborn. Gun owners all though allegedly protected by US Constitution 2<sup>nd</sup> Amendment are always infringed on and yes HB 585 is clear violation of equal protection Claus and the 2<sup>nd</sup> Amendment.

Facts are protection orders in most cases mean no crime was committed. It is truly coercion of the defendand to submit to State ordered gun control. Sure if a crime is actually committed like domestic violence with proven physical assault then prosecute the crime of assault for that law is already on the books.

You the State surely don't put abortionist who have aborted their children on some type of protection order list. Must be that killing babies is okay since Thurgood Marshall said it was.

Truly a violation of liberty and the equal protection Claus. It's okay to kill babies but not okay to own guns since that is what the State says.

Good thing protection orders are keep from the public since you are endangering a person's reputation and employability. Used to be you put protections orders out into the public to defame for the most part men. I guess protection orders somehow equate to paying back gun owners for slavery, is that the crazy thought pattern why you attack the 2<sup>nd</sup> amendment. I suspect in a manner it is.

Bump fire stock is nothing but a piece of mold plastic when locked down is no different than any gun stock. Bump fire stock has no magazine, holds no bullets, and has no trigger mechanism. Bump stocks do not touch any part of the trigger/firing mechanism. This is an infringement on all semi-automatic firearms commonly in use in America since the late 1800's. A semi auto is one trigger squeeze or impact for one (1) bullet fired. A semi auto is not a machine gun. This is a slippery dangerous un-American slope to allow a judge to decide the rate of fire of a semi auto. A push pull motion of the shooter right and left hands causing the trigger to be depressed by the shooters trigger finger in order for one bullet to fire. Any semi-auto rifle or pistol can be bump fired without a bump fire stock. Go to you tube and look up belt loop bump fire for example. Women, men bump fire in these videos. A bump fire stock makes bump firing safer for the shooter. Don't you care about gun owner's safety. What are you going to regulate how a person uses their semi-auto, you don't regulate abortion now do you. That is hypocrisy.

I know of pellet guns that can armor piece aluminum trash cans. You leave this up to a judge to decide what an armor piercing bullet is so arbitrary that it is beyond common sense. You will be able to entrap many Ohioans with this arbitrary illegal law if it so becomes law. When that home invader breaks into a person's home, or a car-jacker jacks an innocent driver, I don't want that person to shoot pancake batter

at the perp, I want the home owner, car driver to be able to kill the home invader, car jacker with an armor piercing bullet. When I go deer hunting I want an armor piercing bullet to pierce that deer and kill it humanly. If Kasich wants air soft guns he can buy one for himself. Kasich has lots of armed security I bet, but he is more special than Ohioans isn't that correct, he is the king of Ohio I guess.

Extreme risk protection order is another word for a gun grab without due process. The laws are already on the books, if a crime is committed punish for that crime. How about an extreme risk of abortion protection order to protect unborn but alive children. Kasich ran Down's syndrome abortion ban up the chain to the federal courts only to give him cover for his gun grabbing ways. A protection order is not a conviction of a crime in most cases. It's an over reach buy an out of control political activist congress, judiciary, or executive branch

Summary:

50 officers die approximately a year in the line of duty, still not enough to be compelling enough reason to ban armor piercing ammo. Officers many are former military they know what their job risks are when they sign up. American's have 288,000,000 family members to protect and don't want to shoot pancake batter at the perp. Brady gets shot and bans assault weapons, still not compelling to ban guns but they did for 10 years. 60,000,000 to 80,000,000 babies killed by abortion still not a compelling reason enough for an end to abortion just ask any democrat judge or republican politicians whose a rhino. I love and respect police...don't get me wrong but I got family and friends who need to be able to stop a perp bent on bodily injury if faced with this situation. In most cases the police show up to clean up the mess not stop it while it's in progress. Police have a response time usually at best 5 minutes and lots of killing by a perp occurs in the first 5 minutes like Las Vegas for example. But any perp with any kind of gun, whether single shot, semi auto, or machine gun could had killed 58 people in 15 minutes (It took 15 minutes before the police or anyone even knew where the crazy criminal shooter was in Las Vegas). Ohio state house, stop stereotyping gun owners into the Las Vegas shooter category, or the 911 airplane terrorist, or the truck on the side walk running pedestrians over. Stop it now. You are not making American families safer you are giving the perp a free pass to commit bodily injury crime against Ohioans and USA citizens by limiting their abilities to protect their families. Shame on you.

Hello my Republican colleagues in the state house of Ohio. I'm that guy that Kasich doesn't like, I'm a republican gun owner. I know hunters...just the other day in the grocery store he said Kasich was a poor excuse for a republican. Please I know for a fact republicans lost Alabama and 18th district Pennsylvania because gun owners stayed home, and they nearly lost the Virginia State House. Will Ohio Republican Politicians learn from these mistakes, I wonder, or will they not learn from history. President Trump is toxic to gun owners...when he was on camera talking about don't bring up reciprocity, Diane Feinstein assault ban...well more died in 2011 from hammers 396 than rifles 300 see FBI 2011 statistics. 3,000 died 911, 50,000 die a year in cars, 60,000,000 to 80,000,000 died from abortion and still not compelling enough for Kasich to suggest banning abortion (that was bogus his stand on downs syndrome if he cared he would take it to supreme court...that gave him some slack in his mind's eye to attack guns), didn't

ban airplanes, cars, or hammers...but why does Kasich want to ban anything and I mean anything in his gun grabbing HB 585 he has a different agenda trying to sell the US Constitution for votes from democrats. By the way I'll be honest all you will do if you vote in support of anything Kasich is trying to ban bump stocks, armor piercing ammo, you will only drive me to fight you socially and verbally to all gun owners and supporters of the US Constitution I meet. I really want to brag up my republican friends but NOT Kasich or Henne...when you hear me out here remember I'm the voice of 1,000,000 Ohioans who might only let you know their feelings when they vote or don't vote. I am 100% opposed to HB 585. Thank you so much for your time
