

Testimony for House Bill 159

The Delphos Canal Commission has a museum which features transportation, especially canal transportation. We are all volunteers and we work very hard to make our museum an informational and inviting place for people to visit. The reward for all our endeavors is the reaction of visitors.

Because both the Miami and Erie Canal and the Lincoln Highway scenic byways pass through Delphos, we get many out-of-town visitors who are interested in their histories. Without the scenic byways, I'm not sure they would visit us. For these reasons the Delphos Canal Commission is in support of House Bill 159.
