

Dear Chairman Green, Representative Johnson, and members of the Transportation Committee -

Thank you for giving me the opportunity to share a few words about what Roy Rogers means to me. I have enjoyed watching old Roy Rogers movies for most of my life. Not only have they been fun to watch, but I have learned valuable lessons about life watching Roy. The way he treated people, his manners toward women, his close relationship with Trigger, and the way he stood for justice and went after the bad guys are the specific examples of how Roy has been a good role model for young people like me.

Since you are thinking about putting his name on part of a highway, that would be a good idea because this will make young people wonder who Roy Rogers was just like I did. Thank you for passing House Bill 311 to make Roy Rogers even more popular among children and teens.
