CONTENT AND OPERATION

License and permit exemptions

The bill authorizes the grandchildren of any age of an Ohio resident landowner to hunt or fish on the landowner's property without obtaining a hunting license, deer permit, wild turkey permit, fur taker permit, fishing license, or waterfowl hunting area permit (permit or license). Current law authorizes a resident landowner's grandchildren under 18 to hunt without a hunting license. However, a grandchild must obtain a deer, wild turkey, fur taker, and waterfowl hunting area permit and a fishing license under

current law. The bill retains the authorization that allows the landowner's children of any age may hunt or fish on the landowner's property without a license or permit.¹

The bill also authorizes the grandchildren of other types of landowners to hunt and fish without a permit or license. The following table illustrates those authorizations compared to current law:²

Type of landowner	Current law	Authorization under H.B. 272

A grandchild is not required to live with the landowner in order to be exempt.</p> <p>Landowner's state of residence must provide reciprocity for Ohio residents.</p>
An individual resident member or partner of a limited liability company or a limited liability partnership that consists of three or fewer individual members or partners, when the property is owned by the company or partnership	<p>Grandchildren of the member or partner under 18 may hunt without a hunting license on the property.</p> <p>Grandchildren must obtain a deer, wild turkey, or fur taker permit or fishing license when hunting or fishing on the landowners' property.</p>	Grandchildren of any age of the member or partner may hunt or fish on the property without a permit or license.
