44 except that, for each of those fiscal years, the "formula  
45 amount" shall equal the amount specified in division (F)(1) of  
46 the section of this act entitled "OPERATING FUNDING FOR FISCAL  
47 YEARS 2020 AND 2021."

48 The motion was \_\_\_\_\_ agreed to.

49 SYNOPSIS

50 **School funding for fiscal years 2020 and 2021**

51 **Sections 265.220, 265.225, 265.227, 265.230, and 265.235**

52 With respect to the operating funding for fiscal years 2020  
53 and 2021 for city, local, exempted village, and joint vocational  
54 school districts, specifies that the amount of foundation aid  
55 each district will receive for each fiscal year of the biennium  
56 is equal to the payments the district received for fiscal year  
57 2019 (rather than the aggregate annualized payments for fiscal  
58 year 2019 that the district received as of the second payment in  
59 June 2019, as under the bill's provisions).

60 With respect to the Senate provision that provides an  
61 additional payment to each city, local, or exempted village  
62 school district with student enrollment greater than or equal to  
63 "50" that experiences enrollment growth, specifies that the  
64 student count used for calculating this payment is the number of  
65 students enrolled in the district for fiscal year 2019 (rather  
66 than the number of students enrolled in the district as of the  
67 district's second payment in June 2019).

68 Makes conforming changes to the Senate provision that  
69 provides a funding adjustment for career-technical education  
70 students by replacing references to the aggregate amount paid  
71 to, or deducted from, a district as of the second payment in  
72 June 2019 with references to the amount paid to, or deducted  
73 from, a district for fiscal year 2019.

74           Specifies that, for fiscal years 2020 and 2021, the per  
75 pupil amount deducted from a school district and paid to a  
76 community school that accepts responsibility to transport its  
77 students must be the same amount deducted and transferred for  
78 that purpose for fiscal year 2019. (The bill does not specify a  
79 fixed amount for this deduction; therefore, the Department of  
80 Education is required to calculate the deduction in accordance  
81 with the current law formula. The bill, however, provides that  
82 school districts are paid an amount for this purpose equal to  
83 the district's aggregate annualized payments as of the second  
84 payment in June 2019, which is changed by the amendment to the  
85 amount for fiscal year 2019, as described above.)

86           Specifies that, for fiscal years 2020 and 2021, each  
87 community school and STEM school's graduation and third-grade  
88 reading bonuses must be recalculated each fiscal year using a  
89 formula amount of \$6,020 (rather than specifying that each  
90 school's payments are not to be recalculated for those fiscal  
91 years and are instead, for each of fiscal years 2020 and 2021,  
92 equal to the amount paid to the school for fiscal year 2019, as  
93 under the bill's provisions).
