The motion was _____ agreed to.

SYNOPSIS

State report cards - overall grade calculation - correction 20

R.C. 3302.03 21

Inserts, with changes, amendments that were adopted by the 22
 Senate Finance Committee, but not engrossed into the bill that do 23
 the following: 24

-- Changes the grading scale used to determine letter grades 25
 assigned for the value-added progress dimension of the report card 26
 as follows: 27

(1) A score of one or greater is designated as an "A"; 28

(2) A score that is less than one but greater than negative 29
 one is designated as a "B". The original amendment specified "not" 30
 greater than negative one. Also specifies that the score less than 31
 one is "above" the mean. These are the only changes from the 32
 original. 33

(3) A score that is less than or equal to negative one but 34
 greater than negative two is designated as a "C"; 35

(4) A score that is less than or equal to negative two but 36
 greater than negative three is designated as a "D"; 37

(5) A score that is less than or equal to negative three or 38
 below is designated as an "F." 39

-- In its benchmarks for assigning letter grades, requires 40
 the State Board of Education to award a district or building an 41

overall value-added progress dimension grade of "A" if the grades 42
for the district or building's subgroup value-added dimension 43
score is a "C" or higher, instead of a "B" or higher under current 44
law. (Value-added progress dimension subgroups include gifted 45
students, students with disabilities, and students whose 46
performance is in the lowest quintile for achievement. 47
