(C) The state board shall administer and supervise the allocation and distribution of all state and federal funds for public school education under the provisions of law, and may prescribe such systems of accounting as are necessary and proper.

The state board shall base any standards governing the promotion of students or requirements for graduation on the ability of students, at any grade level, to earn credits or advance upon demonstration of mastery of knowledge and skills through competency-based learning models. Credits of grade level advancement shall not require a minimum number of days or hours in a classroom.

The state board shall base any standards governing the assignment of staff on ensuring each school has a sufficient number of teachers to ensure a student has an appropriate level of interaction to meet each student's personal learning goals.

In the formulation and administration of such standards for nonpublic schools the board shall also consider the particular needs, methods and objectives of those schools, provided they do not conflict with the provision of a general education of a high quality and provided that regular procedures shall be followed for promotion from grade to grade of pupils who have met the educational requirements prescribed.

All chartered, nonchartered, and accredited nonpublic schools shall comply with the minimum education standards adopted by the state board under this division. (J) In accordance with Chapter 119. of the Revised Code, the state board shall adopt procedures, standards, and guidelines for the education of children with disabilities pursuant to Chapter 3323. of the Revised Code, including procedures, standards, and guidelines governing programs and services operated by county
boards of developmental disabilities pursuant to section 3323.09 of the Revised Code.

(K) For the purpose of encouraging the development of special programs of education for academically gifted children, the state board shall employ competent persons to analyze and publish data, promote research, advise and counsel with boards of education, and encourage the training of teachers in the special instruction of gifted children. The board may provide financial assistance out of any funds appropriated for this purpose to boards of education and educational service center governing boards for developing and conducting programs of education for academically gifted children.

(L) The state board shall require that all public schools emphasize and encourage, within existing units of study, the teaching of energy and resource conservation as recommended to each district board of education by leading business persons involved in energy production and conservation, beginning in the primary grades.

(M) The state board shall formulate and prescribe minimum standards requiring the use of phonics as a technique in the teaching of reading in grades kindergarten through three. The state board shall adopt standards for the approval or disapproval of waivers under this division. The state superintendent shall consider every application for a waiver, and shall determine whether to grant or deny a waiver in accordance with the state board's standards. For each waiver granted, the state superintendent shall specify the period of time during which the waiver is in effect, which shall not exceed five years. A district board may apply to renew a waiver.

Notwithstanding division (A)(1) of this section, the standards for teacher certification prescribed under section 3301.07 of the Revised Code shall provide for certification of a person as a teacher upon receipt by the state board of an affidavit signed by the chief administrative officer of a chartered nonpublic school seeking to employ the person, stating that the person meets one of the following conditions:

No board shall prohibit a student who is not required to take an assessment under division (C)(1) of this section from taking the assessment.

(b) Any alternate assessment approved by the department for a student under this division shall produce measurable results comparable to those produced by the assessment it replaces in order to allow for the student's results to be included in the data compiled for a school district or building under section 3302.03 of the Revised Code.

(c)(i) Any student enrolled in a chartered nonpublic school or an accredited nonpublic school who has been identified, based on an evaluation conducted in accordance with section 3323.03 of the Revised Code or section 504 of the "Rehabilitation Act of 1973," 87 Stat. 355, 29 U.S.C.A. 794, as amended, as a child with
a disability shall be excused from taking any particular 584

state board excuses the student from taking that assessment. 587

(ii) A student with significant cognitive disabilities to 588
whom an alternate assessment is administered in accordance with 589
division (C)(1) of this section and a student determined to have a 590

the assessment prescribed under division (B)(1) of section 593
3301.0712 of the Revised Code.

nonpublic school shall not prohibit the student from taking the 598
assessment.

(2) A district board may, for medical reasons or other good 600
cause, excuse a student from taking an assessment administered 601
under this section on the date scheduled, but that assessment 602
shall be administered to the excused student not later than nine 603
days following the scheduled date. The district board shall 604
annually report the number of students who have not taken one or 605
more of the assessments required by this section to the state 606
board not later than the thirtieth day of June.

(3) As used in this division, "limited English proficient 608
student" has the same meaning as in 20 U.S.C. 7801.

No school district board shall excuse any limited English 610
proficient student from taking any particular assessment required 611
to be administered under this section, except as follows:

(a) Any limited English proficient student who has been 613
enrolled in United States schools for less than two years and for whom no appropriate accommodations are available based on guidance issued by the department shall not be required to take the assessment prescribed under division (B)(1) of section 3301.0712 of the Revised Code.

A board may permit any limited English proficient student to take an assessment required to be administered under this section with appropriate accommodations, as determined by the department. For each limited English proficient student, each school district shall annually assess that student's progress in learning English, in accordance with procedures approved by the department.

(4)(a) The governing authority of a chartered nonpublic or an accredited nonpublic school may excuse a limited English proficient student from taking any assessment administered under this section.

(b) No governing authority of a chartered nonpublic school shall require a limited English proficient student who has been enrolled in United States schools for less than two years and for whom no appropriate accommodations are available based on guidance issued by the department to take the assessment prescribed under division (B)(1) of section 3301.0712 of the Revised Code.

(c) No governing authority of a chartered nonpublic school shall prohibit a limited English proficient student from taking an
assessment from which the student was excused under division (C)(4) of this section.

(D)(1) In the school year next succeeding the school year in which the assessments prescribed by division (A)(1) or (B)(1) of section 3301.0710 of the Revised Code or former division (A)(1), (A)(2), or (B) of section 3301.0710 of the Revised Code as it existed prior to September 11, 2001, are administered to any student, the board of education of any school district in which the student is enrolled in that year shall provide to the student intervention services commensurate with the student's performance, including any intensive intervention required under section 3313.608 of the Revised Code, in any skill in which the student failed to demonstrate at least a score at the proficient level on the assessment.

(2) Following any administration of the assessments prescribed by division (D) of section 3301.0710 of the Revised Code to ninth grade students, each school district that has a three-year average graduation rate of not more than seventy-five per cent shall determine for each high school in the district whether the school shall be required to provide intervention services to any students who took the assessments. In determining which high schools shall provide intervention services based on the resources available, the district shall consider each school's graduation rate and scores on the practice assessments. The district also shall consider the scores received by ninth grade students on the English language arts and mathematics assessments prescribed under division (A)(1)(f) of section 3301.0710 of the Revised Code in the eighth grade in determining which high schools shall provide intervention services.

Each high school selected to provide intervention services under this division shall provide intervention services to any
student whose results indicate that the student is failing to make satisfactory progress toward being able to attain scores at the proficient level on the Ohio graduation tests. Intervention services shall be provided in any skill in which a student demonstrates unsatisfactory progress and shall be commensurate with the student's performance. Schools shall provide the intervention services prior to the end of the school year, during the summer following the ninth grade, in the next succeeding school year, or at any combination of those times.

(E) Except as provided in section 3313.608 of the Revised Code and division (N) of this section, no school district board of education shall utilize any student's failure to attain a specified score on an assessment administered under this section as a factor in any decision to deny the student promotion to a higher grade level. However, a district board may choose not to promote to the next grade level any student who does not take an assessment administered under this section or make up an assessment as provided by division (C)(2) of this section and who is not exempt from the requirement to take the assessment under division (C)(3) of this section.

(F) No person shall be charged a fee for taking any assessment administered under this section.

(G)(1) Each school district board shall designate one location for the collection of assessments administered in the spring under division (B)(1) of this section and those administered under divisions (B)(2) to (7) of this section. Each district board shall submit the assessments to the entity with which the department contracts for the scoring of the assessments as follows:

through twelve during the first full school week of October was less than two thousand five hundred, not later than the Friday after all of the assessments have been administered;

(b) If the district's total enrollment in grades kindergarten through twelve during the first full school week of October was two thousand five hundred or more, but less than seven thousand, not later than the Monday after all of the assessments have been administered;

(c) If the district's total enrollment in grades kindergarten through twelve during the first full school week of October was seven thousand or more, not later than the Tuesday after all of the assessments have been administered.

However, any assessment that a student takes during the make-up period described in division (C)(2) of this section shall be submitted not later than the Friday following the day the student takes the assessment.

(2) The department or an entity with which the department contracts for the scoring of the assessment shall send to each school district board a list of the individual scores of all persons taking a state achievement assessment as follows:

(a) Except as provided in division (G)(2)(b) or (c) of this section, within forty-five days after the administration of the assessments prescribed by sections 3301.0710 and 3301.0712 of the Revised Code, but in no case shall the scores be returned later than the thirtieth day of June following the administration;

(b) In the case of the third-grade English language arts assessment, within forty-five days after the administration of that assessment, but in no case shall the scores be returned later than the fifteenth day of June following the administration;
(c) In the case of the writing component of an assessment or end-of-course examination in the area of English language arts, except for the third-grade English language arts assessment, the results may be sent after forty-five days of the administration of the writing component, but in no case shall the scores be returned later than the thirtieth day of June following the administration.

(3) For assessments administered under this section by a joint vocational school district, the department or entity shall also send to each city, local, or exempted village school district a list of the individual scores of any students of such city, local, or exempted village school district who are attending school in the joint vocational school district.

(4) Beginning with the 2019-2020 school year, a school district, other public school, or chartered nonpublic school, or accredited nonpublic school may administer the third-grade English language arts or mathematics assessment, or both, in a paper format in any school year for which the district board of education or school governing body adopts a resolution indicating that the district or school chooses to administer the assessment in a paper format. The board or governing body shall submit a copy of the resolution to the department of education not later than the first day of May prior to the school year for which it will apply. If the resolution is submitted, the district or school shall administer the assessment in a paper format to all students in the third grade, except that any student whose individualized education program or plan developed under section 504 of the "Rehabilitation Act of 1973," 87 Stat. 355, 29 U.S.C. 794, as amended, specifies that taking the assessment in an online format is an appropriate accommodation for the student may take the assessment in an online format.
(H) Individual scores on any assessments administered under this section shall be released by a district board only in accordance with section 3319.321 of the Revised Code and the rules adopted under division (A) of this section. No district board or its employees shall utilize individual or aggregate results in any manner that conflicts with rules for the ethical use of assessments adopted pursuant to division (A) of this section.

(I) Except as provided in division (G) of this section, the department or an entity with which the department contracts for the scoring of the assessment shall not release any individual scores on any assessment administered under this section. The state board shall adopt rules to ensure the protection of student confidentiality at all times. The rules may require the use of the data verification codes assigned to students pursuant to division (D)(2) of section 3301.0714 of the Revised Code to protect the confidentiality of student scores.

(J) Notwithstanding division (D) of section 3311.52 of the Revised Code, this section does not apply to the board of education of any cooperative education school district except as provided under rules adopted pursuant to this division.

(1) In accordance with rules that the state board shall adopt, the board of education of any city, exempted village, or local school district with territory in a cooperative education school district established pursuant to divisions (A) to (C) of section 3311.52 of the Revised Code may enter into an agreement with the board of education of the cooperative education school district for administering any assessment prescribed under this section to students of the city, exempted village, or local school district who are attending school in the cooperative education school district.

(b) Persons described in division (B)(8)(b) of this section.

Any assessment of students pursuant to such an agreement shall be in lieu of any assessment of such students or persons pursuant to this section.

In accordance with procedures and deadlines prescribed by the department, the parent or guardian of a student enrolled in the school who is not participating in a state scholarship program may submit notice to the chief administrative officer of the school that the parent or guardian does not wish to have the student take the elementary assessments prescribed for the student's grade level under division (A) of section 3301.0710 of the Revised Code. If a parent or guardian submits an opt-out notice, the school shall not administer the
assessments to that student. This option does not apply to any
assessment required for a high school diploma under section
3313.612 of the Revised Code.

(2) A chartered nonpublic school may submit to the
superintendent of public instruction a request for a waiver from
administering the elementary assessments prescribed by division
(A) of section 3301.0710 of the Revised Code. The state
superintendent shall approve or disapprove a request for a waiver
submitted under division (K)(2) of this section. No waiver shall
be approved for any school year prior to the 2015-2016 school

To be eligible to submit a request for a waiver, a chartered
nonpublic school shall meet the following conditions:

the school are children with disabilities, as defined under

neuropsychiatrist or psychiatrist, or a psychologist who is
authorized to practice in this or another state as having a
condition that impairs academic performance, such as dyslexia,
dyscalculia, attention deficit hyperactivity disorder, or
Asperger's syndrome.

(b) The school has solely served a student population
described in division (K)(1)(a) of this section for at least ten
years.

(c) The school provides to the department at least five years
of records of internal testing conducted by the school that
affords the department data required for accountability purposes,
including diagnostic assessments and nationally standardized
norm-referenced achievement assessments that measure reading and
math skills.

(3) Any chartered nonpublic school that is not subject to division (K)(1) of this section may participate in the assessment program by administering any of the assessments prescribed by division (A) of section 3301.0710 of the Revised Code. The chief administrator of the school shall specify which assessments the school will administer. Such specification shall be made in writing to the superintendent of public instruction prior to the first day of August of any school year in which assessments are administered and shall include a pledge that the nonpublic school will administer the specified assessments in the same manner as public schools are required to do under this section and rules adopted by the department.

(L) If a chartered or accredited nonpublic school is educating students in grades nine through twelve, the following shall apply:

(1) Except as provided in division (L)(4) of this section, for a student who is enrolled in a chartered or accredited nonpublic school that is accredited through the independent schools association of the central states and who is attending the school under a state scholarship program, the student shall either take all of the assessments prescribed by division (B) of section 3301.0712 of the Revised Code or take an alternative assessment approved by the department under section 3313.619 of the Revised Code. However, a student who is excused from taking an assessment...
under division (C) of this section or has presented evidence to
the chartered accredited nonpublic school of having satisfied the
condition prescribed by division (A)(1) of section 3313.618 of the
Revised Code to qualify for a high school diploma prior to the
date of the administration of the assessment prescribed under
division (B)(1) of section 3301.0712 of the Revised Code shall not
be required to take that assessment. No governing authority of a
chartered an accredited nonpublic school shall prohibit a student
who is not required to take such assessment from taking the
assessment.

(2) For a student who is enrolled in a chartered an
accredited nonpublic school that is accredited through the
independent schools association of the central states, and who is
not attending the school under a state scholarship program, the
student shall not be required to take any assessment prescribed
under section 3301.0712 or 3313.619 of the Revised Code.

(3)(a) Except as provided in divisions (L)(3)(b) and (4) of
this section, for a student who is enrolled in a chartered
nonpublic school that is not accredited through the independent
schools association of the central states, regardless of whether
the student is attending or is not attending the school under a
state scholarship program, the student shall do one of the
following:

(i) Take all of the assessments prescribed by division (B) of
section 3301.0712 of the Revised Code;

(ii) Take only the assessment prescribed by division (B)(1)

graduating class. The published results of that assessment shall
include the overall composite scores, mean scores, twenty-fifth
percentile scores, and seventy-fifth percentile scores for each subject area of the assessment.

(iii) Take an alternative assessment approved by the department under section 3313.619 of the Revised Code.

No governing authority of a chartered nonpublic school shall prohibit a student who is not required to take such assessment from taking the assessment.

(4) The assessments prescribed by sections 3301.0712 and 3313.619 of the Revised Code shall not be administered to any student attending the school, if the school meets all of the following conditions:

(a) At least ninety-five per cent of the students enrolled in the school are children with disabilities, as defined under section 3323.01 of the Revised Code, or have received a diagnosis by a school district or from a physician, including a neuropsychologist or psychiatrist, or a psychologist who is authorized to practice in this or another state as having a condition that impairs academic performance, such as dyslexia, dyscalculia, attention deficit hyperactivity disorder, or Asperger's syndrome.

(b) The school has solely served a student population described in division (L)(4)(a) of this section for at least ten years.
(c) The school makes available to the department at least five years of records of internal testing conducted by the school that affords the department data required for accountability purposes, including growth in student achievement in reading or mathematics, or both, as measured by nationally norm-referenced assessments that have developed appropriate standards for students.

Division (L)(4) of this section applies to any student attending such school regardless of whether the student receives special education or related services and regardless of whether the student is attending the school under a state scholarship program.

Each superintendent shall administer the assessments in the same manner as district boards are required to do under this section and rules adopted by the department of education and in conformity with division (C)(1)(a) of this section.

(2) The department of education shall furnish the assessments described by sections 3301.0710 and 3301.0712 of the Revised Code to each superintendent.

(N) Notwithstanding division (E) of this section, a school district may use a student's failure to attain a score in at least the proficient range on the mathematics assessment described by division (A)(1)(a) of section 3301.0710 of the Revised Code or on an assessment described by division (A)(1)(b), (c), (d), (e), or (f) of section 3301.0710 of the Revised Code as a factor in retaining that student in the current grade level.
(O)(1) In the manner specified in divisions (O)(3), (4), (6), and (7) of this section, the assessments required by division (A)(1) of section 3301.0710 of the Revised Code shall become public records pursuant to section 149.43 of the Revised Code on the thirty-first day of July following the school year that the assessments were administered.

(2) The department may field test proposed questions with samples of students to determine the validity, reliability, or appropriateness of questions for possible inclusion in a future year's assessment. The department also may use anchor questions on assessments to ensure that different versions of the same assessment are of comparable difficulty.

Field test questions and anchor questions shall not be considered in computing scores for individual students. Field test questions and anchor questions may be included as part of the administration of any assessment required by division (A)(1) or (B) of section 3301.0710 and division (B) of section 3301.0712 of the Revised Code.

(3) Any field test question or anchor question administered under division (O)(2) of this section shall not be a public record. Such field test questions and anchor questions shall be redacted from any assessments which are released as a public record pursuant to division (O)(1) of this section.

(b) For subsequent administrations of each assessment prior
to the 2011-2012 school year, not less than forty per cent of the questions on the assessment that are used to compute a student's score shall be a public record. The department shall determine which questions will be needed for reuse on a future assessment and those questions shall not be public records and shall be redacted from the assessment prior to its release as a public record. However, for each redacted question, the department shall inform each city, local, and exempted village school district of the statewide academic standard adopted by the state board under section 3301.079 of the Revised Code and the corresponding benchmark to which the question relates. The preceding sentence does not apply to field test questions that are redacted under division (O)(3) of this section.

(c) The administrations of each assessment in the 2011-2012, 2012-2013, and 2013-2014 school years shall not be a public record.

(6)(a) Except as provided in division (O)(6)(b) of this section, for the administrations in the 2014-2015, 2015-2016, and 2016-2017 school years, questions on the assessments prescribed under division (A) of section 3301.0710 and division (B)(2) of section 3301.0712 of the Revised Code and the corresponding preferred answers that are used to compute a student's score shall become a public record as follows:

(i) Forty per cent of the questions and preferred answers on the assessments on the thirty-first day of July following the administration of the assessment;

(ii) Twenty per cent of the questions and preferred answers on the assessment on the thirty-first day of July one year after
the administration of the assessment;

(iii) The remaining forty per cent of the questions and preferred answers on the assessment on the thirty-first day of July two years after the administration of the assessment.

The entire content of an assessment shall become a public record within three years of its administration.

The department shall make the questions that become a public record under this division readily accessible to the public on the department's web site. Questions on the spring administration of each assessment shall be released on an annual basis, in accordance with this division.

(b) No questions and corresponding preferred answers shall become a public record under division (O)(6) of this section after July 31, 2017.

(7) Division (O)(7) of this section applies to the assessments prescribed by division (A) of section 3301.0710 and division (B)(2) of section 3301.0712 of the Revised Code.

Beginning with the assessments administered in the spring of the 2017-2018 school year, not less than forty per cent of the questions on each assessment that are used to compute a student's score shall be a public record. The department shall determine which questions will be needed for reuse on a future assessment and those questions shall not be public records and shall be redacted from the assessment prior to its release as a public record. However, for each redacted question, the department shall inform each city, local, and exempted village school district of the corresponding statewide academic standard adopted by the state board under section 3301.079 of the Revised Code and the corresponding benchmark to which the question relates. The
department is not required to provide corresponding standards and
benchmarks to field test questions that are redacted under
division (O)(3) of this section.

In the case of a proposed new district located in more than one county, the map shall be certified by the county auditor of each county in which the proposed district is located.

The state board shall revoke the charter of any school district or school which fails to meet the standards for elementary and high schools as prescribed by the board. In the issuance and revocation of school district or school charters, the state board shall be governed by the provisions of Chapter 119. of the Revised Code.

No school district, or individual school operated by a school district, shall operate without a charter issued by the state board under this section.

In case a school district charter is revoked pursuant to this section, the state board may dissolve the school district and transfer its territory to one or more adjacent districts. An equitable division of the funds, property, and indebtedness of the school district shall be made by the state board among the receiving districts. The board of education of a receiving district shall accept such territory pursuant to the order of the state board. Prior to dissolving the school district, the state board shall notify the appropriate educational service center governing board and all adjacent school district boards of education of its intention to do so. Boards so notified may make recommendations to the state board regarding the proposed dissolution and subsequent transfer of territory. Except as provided in section 3301.161 of the Revised Code, the transfer ordered by the state board shall become effective on the date specified by the state board, but the date shall be at least thirty days following the date of issuance of the order.

A high school is one of higher grade than an elementary school, in which instruction and training are given in accordance with sections 3301.07 and 3313.60 of the Revised Code and which also offers other subjects of study more advanced than those taught in the elementary schools and such other subjects as may be 

3301.0711, if applicable, and sections 3301.164 and 3313.612 of the Revised Code.

(F) When a board of education has identified a parcel of real property that it determines is needed for school purposes, the board may, upon a majority vote of the members of the board, acquire that property by exchanging real property that the board owns in its corporate capacity for the identified real property or by using real property that the board owns in its corporate capacity as part or an entire consideration for the purchase price of the identified real property. Any exchange or acquisition made pursuant to this division shall be made by a conveyance executed by the president and the treasurer of the board.

(G) When a school district board of education has property that the board, by resolution, finds is not needed for school district use, is obsolete, or is unfit for the use for which it was acquired, the board may donate that property in accordance with this division if the fair market value of the property is, in the opinion of the board, two thousand five hundred dollars or less.

The property may be donated to an eligible nonprofit organization that is located in this state and is exempt from federal income taxation pursuant to 26 U.S.C. 501(a) and (c)(3). Before donating any property under this division, the board shall adopt a resolution expressing its intent to make unneeded, obsolete, or unfit-for-use school district property available to these organizations. The resolution shall include guidelines and procedures the board considers to be necessary to implement the donation program and shall indicate whether the school district
will conduct the donation program or the board will contract with a representative to conduct it. If a representative is known when the resolution is adopted, the resolution shall provide contact information such as the representative's name, address, and telephone number.

The resolution shall include within its procedures a requirement that any nonprofit organization desiring to obtain donated property under this division shall submit a written notice to the board or its representative. The written notice shall include evidence that the organization is a nonprofit organization that is located in this state and is exempt from federal income taxation pursuant to 26 U.S.C. 501(a) and (c)(3); a description of the organization's primary purpose; a description of the type or types of property the organization needs; and the name, address, and telephone number of a person designated by the organization's governing board to receive donated property and to serve as its agent.

After adoption of the resolution, the board shall publish, in a newspaper of general circulation in the school district or as provided in section 7.16 of the Revised Code, notice of its intent to donate unneeded, obsolete, or unfit-for-use school district property to eligible nonprofit organizations. The notice shall include a summary of the information provided in the resolution and shall be published twice. The second notice shall be published not less than ten nor more than twenty days after the previous notice. A similar notice also shall be posted continually in the board's office. If the school district maintains a web site on the internet, the notice shall be posted continually at that web site.

The board or its representatives shall maintain a list of all nonprofit organizations that notify the board or its
representative of their desire to obtain donated property under this division and that the board or its representative determines to be eligible, in accordance with the requirements set forth in this section and in the donation program's guidelines and procedures, to receive donated property.

The board or its representative also shall maintain a list of all school district property the board finds to be unneeded, obsolete, or unfit for use and to be available for donation under this division. The list shall be posted continually in a conspicuous location in the board's office, and, if the school district maintains a web site on the internet, the list shall be posted continually at that web site. An item of property on the list shall be donated to the eligible nonprofit organization that first declares to the board or its representative its desire to obtain the item unless the board previously has established, by resolution, a list of eligible nonprofit organizations that shall be given priority with respect to the item's donation. Priority may be given on the basis that the purposes of a nonprofit organization have a direct relationship to specific school district purposes of programs provided or administered by the board. A resolution giving priority to certain nonprofit organizations with respect to the donation of an item of property shall specify the reasons why the organizations are given that priority.

Members of the board shall consult with the Ohio ethics commission, and comply with Chapters 102. and 2921. of the Revised Code, with respect to any donation under this division to a nonprofit organization of which a board member, any member of a board member's family, or any business associate of a board member is a trustee, officer, board member, or employee.
Sec. 3313.48. (A) The board of education of each city, exempted village, local, and joint vocational school district shall provide for the free education of the youth of school age within the district under its jurisdiction, at such places as will be most convenient for the attendance of the largest number thereof. Each school so provided and each chartered nonpublic school, and each accredited nonpublic school described in section 3301.165 of the Revised Code shall be open for instruction with pupils in attendance, including scheduled classes, supervised activities, and approved education options but excluding lunch and breakfast periods and extracurricular activities, for not less than four hundred fifty-five hours in the case of pupils in kindergarten unless such pupils are provided all-day kindergarten, as defined in section 3321.05 of the Revised Code, in which case the pupils shall be in attendance for nine hundred ten hours; nine hundred ten hours in the case of pupils in grades one through six; and one thousand one hours in the case of pupils in grades seven through twelve in each school year, which may include all of the following:

(1) Up to the equivalent of two school days per year during which pupils would otherwise be in attendance but are not required to attend for the purpose of individualized parent-teacher conferences and reporting periods;

(2) Up to the equivalent of two school days per year during which pupils would otherwise be in attendance but are not required to attend for professional meetings of teachers;

(3) Morning and afternoon recess periods of not more than fifteen minutes duration per period for pupils in grades kindergarten through six.
(B) Not later than thirty days prior to adopting a school calendar, the board of education of each city, exempted village, and local school district shall hold a public hearing on the school calendar, addressing topics that include, but are not limited to, the total number of hours in a school year, length of school day, and beginning and end dates of instruction.

(C) No school operated by a city, exempted village, local, or joint vocational school district shall reduce the number of hours in each school year that the school is scheduled to be open for instruction from the number of hours per year the school was open for instruction during the previous school year unless the reduction is approved by a resolution adopted by the district board of education. Any reduction so approved shall not result in fewer hours of instruction per school year than the applicable number of hours required under division (A) of this section.

(D) Prior to making any change in the hours or days in which a high school under its jurisdiction is open for instruction, the board of education of each city, exempted village, and local school district shall consider the compatibility of the proposed change with the scheduling needs of any joint vocational school district in which any of the high school's students are also enrolled. The board shall consider the impact of the proposed change on student access to the instructional programs offered by the joint vocational school district, incentives for students to participate in career-technical education, transportation, and the timing of graduation. The board shall provide the joint vocational school district board with advance notice of the proposed change and the two boards shall enter into a written agreement prescribing reasonable accommodations to meet the scheduling needs of the joint vocational school district prior to implementation of the change.
(E) Prior to making any change in the hours or days in which a school under its jurisdiction is open for instruction, the board of education of each city, exempted village, and local school district shall consider the compatibility of the proposed change with the scheduling needs of any community school established under Chapter 3314. of the Revised Code to which the district is required to transport students under sections 3314.09 and 3327.01 of the Revised Code. The board shall consider the impact of the proposed change on student access to the instructional programs offered by the community school, transportation, and the timing of graduation. The board shall provide the sponsor, governing authority, and operator of the community school with advance notice of the proposed change, and the board and the governing authority, or operator if such authority is delegated to the operator, shall enter into a written agreement prescribing reasonable accommodations to meet the scheduling needs of the community school prior to implementation of the change.

(F) Prior to making any change in the hours or days in which the schools under its jurisdiction are open for instruction, the board of education of each city, exempted village, and local school district shall consult with the chartered and accredited nonpublic schools to which the district is required to transport students under section 3327.01 of the Revised Code and shall consider the effect of the proposed change on the schedule for transportation of those students to their nonpublic schools. The governing authority of a chartered or an accredited nonpublic school shall consult with each school district board of education that transports students to the chartered nonpublic school under section 3327.01 of the Revised Code prior to making any change in the hours or days in which the nonpublic school is open for instruction.
(G) The state board of education shall not adopt or enforce
any rule or standard that imposes on chartered or accredited
nonpublic schools the procedural requirements imposed on school
districts by divisions (B), (C), (D), and (E) of this section.

Sec. 3313.481. Wherever in Title XXXIII of the Revised Code
the term "school day" is used, unless otherwise specified, that
term shall be construed to mean the time during a calendar day
that a school is open for instruction pursuant to the schedule
adopted by the board of education of the school district or the
governing authority of the chartered or accredited nonpublic
school in accordance with section 3313.48 of the Revised Code.

Sec. 3313.482. (A)(1) Prior to the first day of August of
each school year, the board of education of any school district
or, the governing authority of any chartered nonpublic school, or
the governing authority of an accredited nonpublic school
described in section 3301.165 of the Revised Code may adopt a plan
to require students to access and complete classroom lessons
posted on the district's or nonpublic school's web portal or web
site in order to make up hours in that school year on which it is
necessary to close schools for disease epidemic, hazardous weather
conditions, law enforcement emergencies, inoperability of school
buses or other equipment necessary to the school's operation,
damage to a school building, or other temporary circumstances due
to utility failure rendering the school building unfit for school
use.

Prior to the first day of August of each school year, the
governing authority of any community school established under
Chapter 3314. that is not an internet- or computer-based community
school, as defined in section 3314.02 of the Revised Code, may
adopt a plan to require students to access and complete classroom lessons posted on the school's web portal or web site in order to make up hours in that school year on which it is necessary to close the school for any of the reasons specified in division (H)(4) of section 3314.08 of the Revised Code so that the school is in compliance with the minimum number of hours required under Chapter 3314. of the Revised Code.

A plan adopted by a school district board, chartered nonpublic school governing authority, accredited nonpublic school governing authority, or community school governing authority shall provide for making up any number of hours, up to a maximum of the number of hours that are the equivalent of three school days.

(2) Each plan adopted under this section by a school district board of education shall include the written consent of the teachers' employee representative designated under division (B) of section 4117.04 of the Revised Code.

(3) Each plan adopted under this section shall provide for the following:

(a) Not later than the first day of November of the school year, each classroom teacher shall develop a sufficient number of lessons for each course taught by the teacher that school year to cover the number of make-up hours specified in the plan. The teacher shall designate the order in which the lessons are to be posted on the district's, community school's, or nonpublic school's web portal or web site in the event of a school closure. Teachers may be granted up to one professional development day to create lesson plans for those lessons.

(b) To the extent possible and necessary, a classroom teacher shall update or replace, based on current instructional progress, one or more of the lesson plans developed under division (A)(3)(a)
of this section before they are posted on the web portal or web site under division (A)(3)(c) of this section or distributed under division (B) of this section.

(c) As soon as practicable after a school closure, a district or school employee responsible for web portal or web site operations shall make the designated lessons available to students on the district's, community school's, or nonpublic school's portal or site. A lesson shall be posted for each course that was scheduled to meet on the day or hours of the closure.

(d) Each student enrolled in a course for which a lesson is posted on the portal or site shall be granted a two-week period from the date of posting to complete the lesson. The student's classroom teacher shall grade the lesson in the same manner as other lessons. The student may receive an incomplete or failing grade if the lesson is not completed on time.

(e) If a student does not have access to a computer at the student's residence and the plan does not include blizzard bags under division (B) of this section, the student shall be permitted to work on the posted lessons at school after the student's school reopens. If the lessons were posted prior to the reopening, the student shall be granted a two-week period from the date of the reopening, rather than from the date of posting as otherwise required under division (A)(3)(d) of this section, to complete the lessons. The district board or community school or nonpublic school governing authority may provide the student access to a computer before, during, or after the regularly scheduled school day or may provide a substantially similar paper lesson in order to complete the lessons.

(B)(1) In addition to posting classroom lessons online under division (A) of this section, the board of education of any school
district or governing authority of any community, accredited, or chartered nonpublic school may include in the plan distribution of "blizzard bags," which are paper copies of the lessons posted online.

(2) If a school opts to use blizzard bags, teachers shall prepare paper copies in conjunction with the lessons to be posted online and update the paper copies whenever the teacher updates the online lesson plans.

(3) The board of education of any school district or governing authority of any community, accredited, or chartered nonpublic school that opts to use blizzard bags shall specify in the plan the method of distribution of blizzard bag lessons, which may include, but not be limited to, requiring distribution by a specific deadline or requiring distribution prior to anticipated school closure as directed by the superintendent of a school district or the principal, director, chief administrative officer, or the equivalent, of a school.

(4) Students shall turn in completed lessons in accordance with division (A)(3)(d) of this section.

(C)(1) No school district that implements a plan in accordance with this section shall be considered to have failed to comply with division (B) of section 3317.01 of the Revised Code with respect to the number of make-up hours specified in the plan.

(2) No community school that implements a plan in accordance with this section shall be considered to have failed to comply with the minimum number of hours required under Chapter 3314. of the Revised Code with respect to the number of make-up hours specified in the plan.

The administrator shall examine the environmental conditions and operations of each building to determine potential hazards to student and staff safety and shall propose operating changes to promote the prevention of potentially dangerous problems and circumstances. In developing the plan for each building, the administrator shall involve community law enforcement and safety officials, parents of students who are assigned to the building, and teachers and nonteaching employees who are assigned to the building. The administrator shall incorporate remediation strategies into the plan for any building where documented safety problems have occurred.

(2) Each administrator shall also incorporate into the emergency management plan adopted under division (B)(1) of this section all of the following:

Prior to the opening day of each school year, the administrator shall inform each student or child enrolled in the school and the student's or child's parent of the parental notification procedures included in the protocol.

(4) Each administrator shall keep a copy of the emergency management plan adopted pursuant to this section in a secure place.

(C)(1) The administrator shall submit to the department of education, in accordance with rules adopted by the state board of education pursuant to division (F) of this section, an electronic copy of the emergency management plan prescribed by division (B) of this section not less than once every three years, whenever a major modification to the building requires changes in the procedures outlined in the plan, and whenever information on the emergency contact information sheet changes.

(2) The administrator also shall file a copy of the plan with each law enforcement agency that has jurisdiction over the school building and, upon request, to any of the following:

(a) The fire department that serves the political subdivision in which the building is located;
(b) The emergency medical service organization that serves the political subdivision in which the building is located;

(c) The county emergency management agency for the county in which the building is located.

(3) Upon receipt of an emergency management plan, the department of education shall submit the information in accordance with rules adopted by the state board of education pursuant to division (F) of this section, to both of the following:

division (F) of this section;

(2) Grant access to each building under the control of the administrator to law enforcement personnel and to entities described in division (C)(2) of this section, to enable the personnel and entities to hold training sessions for responding to threats and emergency events affecting the building, provided that the access occurs outside of student instructional hours and the administrator, or the administrator's designee, is present in the building during the training sessions.

(F) The state board of education, in accordance with Chapter 119. of the Revised Code, shall adopt rules regarding emergency management plans under this section, including the content of the plans and procedures for filing the plans. The rules shall specify that plans and information required under division (B) of this section be submitted on standardized forms developed by the department of education for such purpose. The rules shall also specify the requirements and procedures for emergency management tests conducted pursuant to division (E)(1) of this section. Failure to comply with the rules may result in discipline pursuant to section 3319.31 of the Revised Code or any other action against the administrator as prescribed by rule.

(G) Division (B) of section 3319.31 of the Revised Code applies to any administrator who is subject to the requirements of this section and is not exempt under division (H) of this section and who is an applicant for a license or holds a license from the state board pursuant to section 3319.22 of the Revised Code.

Notwithstanding section 149.433 of the Revised Code, a floor plan filed with the attorney general pursuant to this section is not a public record to the extent it is a record kept by the attorney general.

(B) No school district board of education or governing authority of a chartered nonpublic, accredited nonpublic school described in section 3301.165 of the Revised Code, or nonchartered nonpublic school shall permit a student to practice for or compete
in interscholastic athletics until the student has submitted, to a school official designated by the board or governing authority, a form signed by the parent, guardian, or other person having care or charge of the student stating that the student and the parent, guardian, or other person having care or charge of the student have received the concussion and head injury information sheet required by section 3707.52 of the Revised Code. A completed form shall be submitted each school year, as defined in section 3313.62 of the Revised Code, for each sport or other category of interscholastic athletics for or in which the student practices or competes.

(C)(1) No school district board of education or governing authority of a chartered, accredited, or nonchartered nonpublic school shall permit an individual to coach interscholastic athletics unless the individual holds a pupil-activity program permit issued under section 3319.303 of the Revised Code for coaching interscholastic athletics.

(D) If a student practicing for or competing in an
interscholastic athletic event exhibits signs, symptoms, or behaviors consistent with having sustained a concussion or head injury while participating in the practice or competition, the student shall be removed from the practice or competition by either of the following:

(1) The individual who is serving as the student's coach during that practice or competition;

(2) An individual who is serving as a referee during that practice or competition.

(E)(1) If a student is removed from practice or competition under division (D) of this section, the coach or referee who removed the student shall not allow the student, on the same day the student is removed, to return to that practice or competition or to participate in any other practice or competition for which the coach or referee is responsible. Thereafter, the coach or referee shall not allow the student to return to that practice or competition or to participate in any other practice or competition for which the coach or referee is responsible until both of the following conditions are satisfied:

(a) The student's condition is assessed by any of the following who has complied with the requirements in division (E)(4) of this section:

(i) A physician;

(ii) A licensed health care professional the school district board of education or governing authority of the chartered, accredited, or nonchartered nonpublic school, pursuant to division (E)(2) of this section, authorizes to assess a student who has been removed from practice or competition under division (D) of this section;

(4) Beginning one year after the effective date of this amendment September 17, 2015, all physicians and licensed health care professionals who conduct assessments and clearances under division (E)(1) of this section must meet the minimum education requirements established by rules adopted under section 3707.521 of the Revised Code by their respective licensing agencies.

(G)(1) A school district, member of a school district board of education, or school district employee or volunteer, including a coach or referee, is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from providing services or performing duties under this section, unless the act or omission constitutes willful or wanton misconduct.

This section does not eliminate, limit, or reduce any other immunity or defense that a school district, member of a school district board of education, or school district employee or volunteer, including a coach or referee, may be entitled to under Chapter 2744, or any other provision of the Revised Code or under the common law of this state.

(2) A chartered, accredited, or nonchartered nonpublic school or any officer, director, employee, or volunteer of the school, including a coach or referee, is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from providing services or performing duties under this section, unless the act or omission constitutes willful or wanton misconduct.
Sec. 3313.5311.  (A) As used in this section and in section 3313.5312 of the Revised Code, "extracurricular activity" has the same meaning as in section 3313.537 of the Revised Code.

(B) If the nonpublic school in which the student is enrolled does not offer the extracurricular activity, a student enrolled in a chartered nonpublic school, accredited nonpublic school described in section 3301.165 of the Revised Code, or nonchartered nonpublic school shall be afforded, by the superintendent of the school district in which the student is entitled to attend school under section 3313.64 or 3313.65 of the Revised Code, the opportunity to participate in that extracurricular activity at the district school to which the student otherwise would be assigned during that school year. If more than one school operated by the school district serves the student's grade level, as determined by the district superintendent based on the student's age and academic performance, the student shall be afforded the opportunity to participate in that extracurricular activity at the school to which the student would be assigned by the superintendent under section 3319.01 of the Revised Code.

(C) The superintendent of any school district may afford any student enrolled in a nonpublic school, and who is not entitled to attend school in the district under section 3313.64 or 3313.65 of the Revised Code, the opportunity to participate in an extracurricular activity offered by a school of the district, if the nonpublic school in which the student is enrolled does not offer the extracurricular activity and either of the following apply:

(1) The extracurricular activity is not interscholastic athletics or interscholastic contests or competition in music, drama, or forensics.
(2) The extracurricular activity is in an interscholastic athletic or interscholastic contest or competition in music, drama, or forensics. In order to participate under division (C)(2) of this section, the student shall seek to participate at either the school district in which the student's nonpublic school is located or the school district in which the student is entitled to attend school under section 3313.64 or 3313.65 of the Revised Code, so long as the chosen district offers the extracurricular activity.

If the student seeks to participate under division (C)(2) of this section at the school district in which the student's nonpublic school is located, both of the following shall apply:

(a) The superintendent of the school district in which the student is entitled to attend school shall certify that the student has not participated in any extracurricular activity that is in an interscholastic athletic or interscholastic contest or competition in music, drama, or forensics at that school district during that school year. If the student has participated in such an extracurricular activity at that school district during the school year, the student shall be ineligible to participate at the school district in which the student's nonpublic school is located for that school year.

(b) The superintendent of the school district in which the student is entitled to attend school and the superintendent of the school district in which the student is seeking to participate shall mutually agree, in writing, to allow the student to participate in the extracurricular activity at the school district in which the student's nonpublic school is located.

(D) In order to participate in an extracurricular activity under this section, the student shall be of the appropriate age.
and grade level, as determined by the superintendent of the district, for the school that offers the extracurricular activity, and shall fulfill the same academic, nonacademic, and financial requirements as any other participant.

(E) No school district shall impose additional rules on a student to participate under this section that do not apply to other students participating in the same extracurricular activity. No district shall impose additional fees for a student to participate under this section that exceed any fees charged to other students participating in the same extracurricular activity.

(F) No school district, interscholastic conference, or organization that regulates interscholastic conferences or events shall require a student who is eligible to participate in interscholastic extracurricular activities under this section to meet eligibility requirements that conflict with this section.

(1) English language arts, four units;
(2) Health, one-half unit;
(3) Mathematics, three units;
(4) Physical education, one-half unit;
(5) Science, two units until September 15, 2003, and three units thereafter, which at all times shall include both of the following:
   (a) Biological sciences, one unit;
   (b) Physical sciences, one unit.
(6) History and government, one unit, which shall comply with division (M) of this section and shall include both of the following:
   (a) American history, one-half unit;
   (b) American government, one-half unit.

Beginning with students who enter ninth grade for the first time on or after July 1, 2017, the two units of instruction prescribed by division (B)(7) of this section shall include at least one-half unit of instruction in the study of world history and civilizations.

(8) Elective units, seven units until September 15, 2003, and six units thereafter.

Each student's electives shall include at least one unit, or two half units, chosen from among the areas of business/technology, fine arts, and/or foreign language.

(C) Beginning with students who enter ninth grade for the first time on or after July 1, 2010, except as provided in
divisions (D) to (F) of this section, the requirements for graduation from every public and chartered nonpublic high school shall include twenty units that are designed to prepare students for the workforce and college. The units shall be distributed as follows:

(1) English language arts, four units;

(2) Health, one-half unit, which shall include instruction in nutrition and the benefits of nutritious foods and physical activity for overall health;

(3) Mathematics, four units, which shall include one unit of algebra II or the equivalent of algebra II, or one unit of advanced computer science as described in the standards adopted pursuant to division (A)(4) of section 3301.079 of the Revised Code. However, students who enter ninth grade for the first time on or after July 1, 2015, and who are pursuing a career-technical instructional track shall not be required to take algebra II or advanced computer science, and instead may complete a career-based pathway mathematics course approved by the department of education as an alternative.

For students who choose to take advanced computer science in lieu of algebra II under division (C)(3) of this section, the school shall communicate to those students that some institutions of higher education may require algebra II for the purpose of college admission. Also, the parent, guardian, or legal custodian of each student who chooses to take advanced computer science in lieu of algebra II shall sign and submit to the school a document containing a statement acknowledging that not taking algebra II may have an adverse effect on college admission decisions.

(4) Physical education, one-half unit;
(5) Science, three units with inquiry-based laboratory experience that engages students in asking valid scientific questions and gathering and analyzing information, which shall include the following, or their equivalent:

(a) Physical sciences, one unit;

(b) Life sciences, one unit;

(c) Advanced study in one or more of the following sciences, one unit:
   (i) Chemistry, physics, or other physical science;
   (ii) Advanced biology or other life science;
   (iii) Astronomy, physical geology, or other earth or space science;
   (iv) Computer science.

No student shall substitute a computer science course for a life sciences or biology course under division (C)(5) of this section.

(6) History and government, one unit, which shall comply with division (M) of this section and shall include both of the following:

(a) American history, one-half unit;

(b) American government, one-half unit.

(7) Social studies, two units.

Each school shall integrate the study of economics and financial literacy, as expressed in the social studies academic content standards adopted by the state board of education under division (A)(1) of section 3301.079 of the Revised Code and the academic content standards for financial literacy and
entrepreneurship adopted under division (A)(2) of that section, into one or more existing social studies credits required under division (C)(7) of this section, or into the content of another class, so that every high school student receives instruction in those concepts. In developing the curriculum required by this paragraph, schools shall use available public-private partnerships and resources and materials that exist in business, industry, and through the centers for economics education at institutions of higher education in the state.

Beginning with students who enter ninth grade for the first time on or after July 1, 2017, the two units of instruction prescribed by division (C)(7) of this section shall include at least one-half unit of instruction in the study of world history and civilizations.

(8) Five units consisting of one or any combination of foreign language, fine arts, business, career-technical education, family and consumer sciences, technology which may include computer science, agricultural education, a junior reserve officer training corps (JROTC) program approved by the congress of the United States under title 10 of the United States Code, or English language arts, mathematics, science, or social studies courses not otherwise required under division (C) of this section.

Ohioans must be prepared to apply increased knowledge and skills in the workplace and to adapt their knowledge and skills quickly to meet the rapidly changing conditions of the twenty-first century. National studies indicate that all high school graduates need the same academic foundation, regardless of the opportunities they pursue after graduation. The goal of Ohio's system of elementary and secondary education is to prepare all students for and seamlessly connect all students to success in
life beyond high school graduation, regardless of whether the next step is entering the workforce, beginning an apprenticeship, engaging in post-secondary training, serving in the military, or pursuing a college degree.

The requirements for graduation prescribed in division (C) of this section are the standard expectation for all students entering ninth grade for the first time at a public or chartered nonpublic high school on or after July 1, 2010. A student may satisfy this expectation through a variety of methods, including, but not limited to, integrated, applied, career-technical, and traditional coursework.

Stronger coordination between high schools and institutions of higher education is necessary to prepare students for more challenging academic endeavors and to lessen the need for academic remediation in college, thereby reducing the costs of higher education for Ohio's students, families, and the state. The state board and the chancellor of higher education shall develop policies to ensure that only in rare instances will students who complete the requirements for graduation prescribed in division (C) of this section require academic remediation after high school.

School districts, community schools, and chartered nonpublic schools shall integrate technology into learning experiences across the curriculum in order to maximize efficiency, enhance learning, and prepare students for success in the technology-driven twenty-first century. Districts and schools shall use distance and web-based course delivery as a method of providing or augmenting all instruction required under this division, including laboratory experience in science. Districts and schools shall utilize technology access and electronic
learning opportunities provided by the broadcast educational media commission, chancellor, the Ohio learning network, education technology centers, public television stations, and other public and private providers.

(D) Except as provided in division (E) of this section, a student who enters ninth grade on or after July 1, 2010, and before July 1, 2016, may qualify for graduation from a public or chartered nonpublic high school even though the student has not completed the requirements for graduation prescribed in division (C) of this section if all of the following conditions are satisfied:

(1) During the student's third year of attending high school, as determined by the school, the student and the student's parent, guardian, or custodian sign and file with the school a written statement asserting the parent's, guardian's, or custodian's consent to the student's graduating without completing the requirements for graduation prescribed in division (C) of this section and acknowledging that one consequence of not completing those requirements is ineligibility to enroll in most state universities in Ohio without further coursework.

(2) The student and parent, guardian, or custodian fulfill any procedural requirements the school stipulates to ensure the student's and parent's, guardian's, or custodian's informed consent and to facilitate orderly filing of statements under division (D)(1) of this section. Annually, each district or school shall notify the department of the number of students who choose to qualify for graduation under division (D) of this section and the number of students who complete the student's success plan and graduate from high school.

(3) The student and the student's parent, guardian, or
custodian and a representative of the student's high school jointly develop a student success plan for the student in the manner described in division (C)(1) of section 3313.6020 of the Revised Code that specifies the student matriculating to a two-year degree program, acquiring a business and industry-recognized credential, or entering an apprenticeship.

(4) The student's high school provides counseling and support for the student related to the plan developed under division (D)(3) of this section during the remainder of the student's high school experience.

(5)(a) Except as provided in division (D)(5)(b) of this section, the student successfully completes, at a minimum, the curriculum prescribed in division (B) of this section.

(b) Beginning with students who enter ninth grade for the first time on or after July 1, 2014, a student shall be required to complete successfully, at the minimum, the curriculum prescribed in division (B) of this section, except as follows:

(i) Mathematics, four units, one unit which shall be one of the following:

(I) Probability and statistics;

(II) Computer science;

(III) Applied mathematics or quantitative reasoning;

(IV) Any other course approved by the department using standards established by the superintendent not later than October 1, 2014.

(ii) Elective units, five units;

(iii) Science, three units as prescribed by division (B) of this section which shall include inquiry-based laboratory
experience that engages students in asking valid scientific
questions and gathering and analyzing information.

The department, in collaboration with the chancellor, shall
analyze student performance data to determine if there are
mitigating factors that warrant extending the exception permitted
by division (D) of this section to high school classes beyond
those entering ninth grade before July 1, 2016. The department
shall submit its findings and any recommendations not later than
December 1, 2015, to the speaker and minority leader of the house
of representatives, the president and minority leader of the
senate, the chairpersons and ranking minority members of the
standing committees of the house of representatives and the senate
that consider education legislation, the state board of education,
and the superintendent of public instruction.

(E) Each school district and chartered nonpublic school
retains the authority to require an even more challenging minimum
curriculum for high school graduation than specified in division
(B) or (C) of this section. A school district board of education,
through the adoption of a resolution, or the governing authority
of a chartered nonpublic school may stipulate any of the
following:

(1) A minimum high school curriculum that requires more than
twenty units of academic credit to graduate;

(2) An exception to the district's or school's minimum high
school curriculum that is comparable to the exception provided in
division (D) of this section but with additional requirements,
which may include a requirement that the student successfully
complete more than the minimum curriculum prescribed in division
(B) of this section;

(3) That no exception comparable to that provided in division
(D) of this section is available.

(F) A student enrolled in a dropout prevention and recovery program, which program has received a waiver from the department, may qualify for graduation from high school by successfully completing a competency-based instructional program administered by the dropout prevention and recovery program in lieu of completing the requirements for graduation prescribed in division (C) of this section. The department shall grant a waiver to a dropout prevention and recovery program, within sixty days after the program applies for the waiver, if the program meets all of the following conditions:

1. The program serves only students not younger than sixteen years of age and not older than twenty-one years of age.

2. The program enrolls students who, at the time of their initial enrollment, either, or both, are at least one grade level behind their cohort age groups or experience crises that significantly interfere with their academic progress such that they are prevented from continuing their traditional programs.

3. The program requires students to attain at least the applicable score designated for each of the assessments prescribed under division (B)(1) of section 3301.0710 of the Revised Code or, to the extent prescribed by rule of the state board under division (D)(5) of section 3301.0712 of the Revised Code, division (B)(2) of that section.

4. The program develops a student success plan for the student in the manner described in division (C)(1) of section 3313.6020 of the Revised Code that specifies the student's matriculating to a two-year degree program, acquiring a business and industry-recognized credential, or entering an apprenticeship.
(5) The program provides counseling and support for the student related to the plan developed under division (F)(4) of this section during the remainder of the student's high school experience.

(6) The program requires the student and the student's parent, guardian, or custodian to sign and file, in accordance with procedural requirements stipulated by the program, a written statement asserting the parent's, guardian's, or custodian's consent to the student's graduating without completing the requirements for graduation prescribed in division (C) of this section and acknowledging that one consequence of not completing those requirements is ineligibility to enroll in most state universities in Ohio without further coursework.

(7) Prior to receiving the waiver, the program has submitted to the department an instructional plan that demonstrates how the academic content standards adopted by the state board under section 3301.079 of the Revised Code will be taught and assessed.

(8) Prior to receiving the waiver, the program has submitted to the department a policy on career advising that satisfies the requirements of section 3313.6020 of the Revised Code, with an emphasis on how every student will receive career advising.

(9) Prior to receiving the waiver, the program has submitted to the department a written agreement outlining the future cooperation between the program and any combination of local job training, postsecondary education, nonprofit, and health and social service organizations to provide services for students in the program and their families.

Divisions (F)(8) and (9) of this section apply only to waivers granted on or after July 1, 2015.
If the department does not act either to grant the waiver or to reject the program application for the waiver within sixty days as required under this section, the waiver shall be considered to be granted.

(G) Every high school may permit students below the ninth grade to take advanced work. If a high school so permits, it shall award high school credit for successful completion of the advanced work and shall count such advanced work toward the graduation requirements of division (B) or (C) of this section if the advanced work was both:

(1) Taught by a person who possesses a license or certificate issued under section 3301.071, 3319.22, or 3319.222 of the Revised Code that is valid for teaching high school;

(2) Designated by the board of education of the city, local, or exempted village school district, the board of the cooperative education school district, or the governing authority of the chartered nonpublic school as meeting the high school curriculum requirements.

Each high school shall record on the student's high school transcript all high school credit awarded under division (G) of this section. In addition, if the student completed a seventh- or eighth-grade fine arts course described in division (K) of this section and the course qualified for high school credit under that division, the high school shall record that course on the student's high school transcript.

(H) The department shall make its individual academic career plan available through its Ohio career information system web site for districts and schools to use as a tool for communicating with and providing guidance to students and families in selecting high school courses.
(I) A school district or chartered nonpublic school may integrate academic content in a subject area for which the state board has adopted standards under section 3301.079 of the Revised Code into a course in a different subject area, including a career-technical education course, in accordance with guidance for integrated coursework developed by the department. Upon successful completion of an integrated course, a student may receive credit for both subject areas that were integrated into the course. Units earned for subject area content delivered through integrated academic and career-technical instruction are eligible to meet the graduation requirements of division (B) or (C) of this section.

For purposes of meeting graduation requirements, if an end-of-course examination has been prescribed under section 3301.0712 of the Revised Code for the subject area delivered through integrated instruction, the school district or school may administer the related subject area examinations upon the student's completion of the integrated course.

Nothing in division (I) of this section shall be construed to excuse any school district, chartered nonpublic school, or student from any requirement in the Revised Code related to curriculum, assessments, or the awarding of a high school diploma.

(J)(1) The state board, in consultation with the chancellor, shall adopt a statewide plan implementing methods for students to earn units of high school credit based on a demonstration of subject area competency, instead of or in combination with completing hours of classroom instruction. The state board shall adopt the plan not later than March 31, 2009, and commence phasing in the plan during the 2009-2010 school year. The plan shall include a standard method for recording demonstrated proficiency on high school transcripts. Each school district and community
school shall comply with the state board's plan adopted under this division and award units of high school credit in accordance with the plan. The state board may adopt existing methods for earning high school credit based on a demonstration of subject area competency as necessary prior to the 2009-2010 school year.

(2) Not later than December 31, 2015, the state board shall update the statewide plan adopted pursuant to division (J)(1) of this section to also include methods for students enrolled in seventh and eighth grade to meet curriculum requirements based on a demonstration of subject area competency, instead of or in combination with completing hours of classroom instruction. Beginning with the 2017-2018 school year, each school district and community school also shall comply with the updated plan adopted pursuant to this division and permit students enrolled in seventh and eighth grade to meet curriculum requirements based on subject area competency in accordance with the plan.

(3) Not later than December 31, 2017, the department shall develop a framework for school districts and community schools to use in granting units of high school credit to students who demonstrate subject area competency through work-based learning experiences, internships, or cooperative education. Beginning with the 2018-2019 school year, each district and community school shall comply with the framework. Each district and community school also shall review any policy it has adopted regarding the demonstration of subject area competency to identify ways to incorporate work-based learning experiences, internships, and cooperative education into the policy in order to increase student engagement and opportunities to earn units of high school credit.

(K) This division does not apply to students who qualify for graduation from high school under division (D) or (F) of this
section, or to students pursuing a career-technical instructional track as determined by the school district board of education or the chartered nonpublic school's governing authority. Nevertheless, the general assembly encourages such students to consider enrolling in a fine arts course as an elective.

Beginning with students who enter ninth grade for the first time on or after July 1, 2010, each student enrolled in a public or chartered nonpublic high school shall complete two semesters or the equivalent of fine arts to graduate from high school. The coursework may be completed in any of grades seven to twelve. Each student who completes a fine arts course in grade seven or eight may elect to count that course toward the five units of electives required for graduation under division (C)(8) of this section, if the course satisfied the requirements of division (G) of this section. In that case, the high school shall award the student high school credit for the course and count the course toward the five units required under division (C)(8) of this section. If the course in grade seven or eight did not satisfy the requirements of division (G) of this section, the high school shall not award the student high school credit for the course but shall count the course toward the two semesters or the equivalent of fine arts required by this division.

(L) Notwithstanding anything to the contrary in this section, the board of education of each school district and the governing authority of each chartered nonpublic school may adopt a policy to excuse from the high school physical education requirement each student who, during high school, has participated in interscholastic athletics, marching band, or cheerleading for at least two full seasons or in the junior reserve officer training corps for at least two full school years. If the board or authority adopts such a policy, the board or authority shall not
require the student to complete any physical education course as a
condition to graduate. However, the student shall be required to
complete one-half unit, consisting of at least sixty hours of
instruction, in another course of study. In the case of a student
who has participated in the junior reserve officer training corps
for at least two full school years, credit received for that
participation may be used to satisfy the requirement to complete
one-half unit in another course of study.

(M) It is important that high school students learn and
understand United States history and the governments of both the
United States and the state of Ohio. Therefore, beginning with
students who enter ninth grade for the first time on or after July
1, 2012, the study of American history and American government
required by divisions (B)(6) and (C)(6) of this section shall
include the study of all of the following documents:

(1) The Declaration of Independence;
(2) The Northwest Ordinance;
(3) The Constitution of the United States with emphasis on
the Bill of Rights;
(4) The Ohio Constitution.

The study of each of the documents prescribed in divisions
(M)(1) to (4) of this section shall include study of that document
in its original context.

The study of American history and government required by
divisions (B)(6) and (C)(6) of this section shall include the
historical evidence of the role of documents such as the
Federalist Papers and the Anti-Federalist Papers to firmly
establish the historical background leading to the establishment
of the provisions of the Constitution and Bill of Rights.
(N) A student may apply one unit of instruction in computer science to satisfy one unit of mathematics or one unit of science under division (C) of this section as the student chooses, regardless of the field of certification of the teacher who teaches the course, so long as that teacher meets the licensure requirements prescribed by section 3319.236 of the Revised Code and, prior to teaching the course, completes a professional development program determined to be appropriate by the district board.

If a student applies more than one computer science course to satisfy curriculum requirements under that division, the courses shall be sequential and progressively more difficult or cover different subject areas within computer science.

(O) This section shall not apply to accredited nonpublic schools described in section 3301.165 of the Revised Code.

Sec. 3313.62. The school year shall begin on the first day of July of each calendar year and close on the thirtieth day of June of the succeeding calendar year. A school week shall consist of five days. A chartered nonpublic school or an accredited nonpublic school described in section 3301.165 of the Revised Code may be open for instruction with pupils in attendance on any day of the week, including Saturday or Sunday.

Sec. 3313.716. (A) Notwithstanding section 3313.713 of the Revised Code or any policy adopted under that section, a student of a school operated by a city, local, exempted village, or joint vocational school district or a student of a chartered nonpublic school, or a student of an accredited nonpublic school described in section 3301.165 of the Revised Code may possess and use a metered dose inhaler or a dry powder inhaler to alleviate
asthmatic symptoms, or before exercise to prevent the onset of asthmatic symptoms, if both of the following conditions are satisfied:

(1) The student has the written approval of the student's physician and, if the student is a minor, the written approval of the parent, guardian, or other person having care or charge of the student. The physician's written approval shall include at least all of the following information:

(a) The student's name and address;

(b) The names and dose of the medication contained in the inhaler;

(c) The date the administration of the medication is to begin;

(d) The date, if known, that the administration of the medication is to cease;

(e) Written instructions that outline procedures school personnel should follow in the event that the asthma medication does not produce the expected relief from the student's asthma attack;

(f) Any severe adverse reactions that may occur to the child using the inhaler and that should be reported to the physician;

(g) Any severe adverse reactions that may occur to another child, for whom the inhaler is not prescribed, should such a child receive a dose of the medication;

(h) At least one emergency telephone number for contacting the physician in an emergency;

(i) At least one emergency telephone number for contacting the parent, guardian, or other person having care or charge of the
student in an emergency;

(j) Any other special instructions from the physician.

(2) The school principal and, if a school nurse is assigned to the student's school building, the school nurse has received copies of the written approvals required by division (A)(1) of this section.

If these conditions are satisfied, the student may possess and use the inhaler at school or at any activity, event, or program sponsored by or in which the student's school is a participant.

(B)(1) A school district, member of a school district board of education, or school district employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a district employee's prohibiting a student from using an inhaler because of the employee's good faith belief that the conditions of divisions (A)(1) and (2) of this section had not been satisfied. A school district, member of a school district board of education, or school district employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a district employee's permitting a student to use an inhaler because of the employee's good faith belief that the conditions of divisions (A)(1) and (2) of this section had been satisfied. Furthermore, when a school district is required by this section to permit a student to possess and use an inhaler because the conditions of divisions (A)(1) and (2) of this section have been satisfied, the school district, any member of the school district board of education, or any school district employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from the use of the inhaler by a student for whom it was
not prescribed.

This section does not eliminate, limit, or reduce any other immunity or defense that a school district, member of a school district board of education, or school district employee may be entitled to under Chapter 2744. or any other provision of the Revised Code or under the common law of this state.

(2) A chartered or an accredited nonpublic school or any officer, director, or employee of the school is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a school employee's prohibiting a student from using an inhaler because of the employee's good faith belief that the conditions of divisions (A)(1) and (2) of this section had not been satisfied. A chartered or an accredited nonpublic school or any officer, director, or employee of the school is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a school employee's permitting a student to use an inhaler because of the employee's good faith belief that the conditions of divisions (A)(1) and (2) of this section had been satisfied. Furthermore, when a chartered or an accredited nonpublic school is required by this section to permit a student to possess and use an inhaler because the conditions of divisions (A)(1) and (2) of this section have been satisfied, the chartered or accredited nonpublic school or any officer, director, or employee of the school is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from the use of the inhaler by a student for whom it was not prescribed.

Sec. 3313.717. (A) As used in this section, "automated external defibrillator" means a specialized defibrillator that is approved for use as a medical device by the United States food and
drug administration for performing automated external defibrillation, as defined in section 2305.235 of the Revised Code.

(B)(1) The board of education of each school district may require the placement of an automated external defibrillator in each school under the control of the board. Not later than July 1, 2018, pursuant to section 3313.6023 of the Revised Code, all persons employed by a school district shall receive training in the use of an automated external defibrillator in accordance with that section, except for substitutes, adult education instructors who are scheduled to work the full-time equivalent of less than one hundred twenty days per school year, or persons who are employed on an as-needed, seasonal, or intermittent basis, so long as the persons are not employed to coach or supervise interscholastic athletics.

(2) The administrative authority of each chartered nonpublic school and the administrative authority of each accredited nonpublic school described in section 3301.165 of the Revised Code may require the placement of an automated external defibrillator in each school under the control of the authority. If an authority requires the placement of an automated external defibrillator as provided in this section, the authority also shall require that a sufficient number of the staff persons assigned to each school under the control of the authority successfully complete an appropriate training course in the use of an automated external defibrillator as described in section 3701.85 of the Revised Code.

(C) In regard to the use of an automated external defibrillator that is placed in a school as specified in this section, and except in the case of willful or wanton misconduct or when there is no good faith attempt to activate an emergency
medical services system in accordance with section 3701.85 of the Revised Code, no person shall be held liable in civil damages for injury, death, or loss to person or property, or held criminally liable, for performing automated external defibrillation in good faith, regardless of whether the person has obtained appropriate training on how to perform automated external defibrillation or successfully completed a course in cardiopulmonary resuscitation.

Sec. 3313.718. (A) As used in this section, "prescriber" has the same meaning as in section 4729.01 of the Revised Code.

(B) Notwithstanding section 3313.713 of the Revised Code or any policy adopted under that section, a student of a school operated by a city, local, exempted village, or joint vocational school district or a student of a chartered nonpublic school, or a student of an accredited nonpublic school described in section 3301.165 of the Revised Code may possess and use an epinephrine autoinjector to treat anaphylaxis, if all of the following conditions are satisfied:

(1) The student has the written approval of the prescriber of the autoinjector and, if the student is a minor, the written approval of the parent, guardian, or other person having care or charge of the student. The prescriber's written approval shall include at least all of the following information:

(a) The student's name and address;

(b) The names and dose of the medication contained in the autoinjector;

(c) The date the administration of the medication is to begin;

(d) The date, if known, that the administration of the
medication is to cease;

(e) Acknowledgment that the prescriber has determined that
the student is capable of possessing and using the autoinjector
appropriately and has provided the student with training in the
proper use of the autoinjector;

(f) Circumstances in which the autoinjector should be used;

(g) Written instructions that outline procedures school
employees should follow in the event that the student is unable to
administer the anaphylaxis medication or the medication does not
produce the expected relief from the student's anaphylaxis;

(h) Any severe adverse reactions that may occur to the child
using the autoinjector that should be reported to the prescriber;

(i) Any severe adverse reactions that may occur to another
child, for whom the autoinjector is not prescribed, should such a
child receive a dose of the medication;

(j) At least one emergency telephone number for contacting
the prescriber in an emergency;

(k) At least one emergency telephone number for contacting
the parent, guardian, or other person having care or charge of the
student in an emergency;

(l) Any other special instructions from the prescriber.

(2) The school principal and, if a school nurse is assigned
to the student's school building, the school nurse has received
copies of the written approvals required by division (B)(1) of
this section.

(3) The school principal or, if a school nurse is assigned to
the student's school building, the school nurse has received a
backup dose of the anaphylaxis medication from the parent,
guardian, or other person having care or charge of the student or, if the student is not a minor, from the student.

If these conditions are satisfied, the student may possess and use the autoinjector at school or at any activity, event, or program sponsored by or in which the student's school is a participant.

(C) Whenever a student uses an autoinjector at school or at any activity, event, or program sponsored by or in which the student's school is a participant or whenever a school employee administers anaphylaxis medication to a student that was possessed by the student pursuant to the written approvals described in division (B)(1) of this section, a school employee shall immediately request assistance from an emergency medical service provider.

(D)(1) A school district, member of a school district board of education, or school district employee is not liable in damages in a civil action for injury, death, or loss to person or property allegedly arising from a district employee's prohibiting a student from using an autoinjector because of the employee's good faith belief that the conditions of division (B) of this section had not been satisfied. A child between six and eighteen years of age is "of compulsory school age" for the purpose of sections 3321.01 to 3321.13 of the Revised Code. A child under six years of age who has been enrolled in kindergarten also shall be considered "of compulsory school age" for the purpose of sections 3321.01 to 3321.13 of the Revised Code unless at any time the child's parent or guardian, at the parent's or guardian's discretion and in consultation with the child's teacher and principal, formally withdraws the child from kindergarten. The compulsory school age of a child shall not commence until the beginning of the term of such schools, or other time in the school year fixed by the rules of the board of the district in which the child resides.

(2) In a district in which all children are admitted to kindergarten and the first grade in August or September, a child shall be admitted if the child is five or six years of age, respectively, by the thirtieth day of September of the year of admittance, or by the first day of a term or semester other than one beginning in August or September in school districts granting admittance at the beginning of such term or semester. A child who does not meet the age requirements of this section for admittance to kindergarten or first grade, but who will be five or six years old, respective, prior to the first day of January of the school year in which admission is requested, shall be evaluated for early admittance in accordance with district policy upon referral by the child's parent or guardian, an educator employed by the district, a preschool educator who knows the child, or a pediatrician or
psychologist who knows the child. Following an evaluation in accordance with a referral under this section, the district board shall decide whether to admit the child. If a child for whom admission to kindergarten or first grade is requested will not be five or six years of age, respectively, prior to the first day of January of the school year in which admission is requested, the child shall be admitted only in accordance with the district's acceleration policy adopted under section 3324.10 of the Revised Code.

(3) Notwithstanding division (A)(2) of this section, beginning with the school year that starts in 2001 and continuing thereafter the board of education of any district may adopt a resolution establishing the first day of August in lieu of the thirtieth day of September as the required date by which students must have attained the age specified in that division.

(4) After a student has been admitted to kindergarten in a school district or chartered or accredited nonpublic school, no board of education of a school district to which the student transfers shall deny that student admission based on the student's age. (C)(1) Except as provided in division (A)(2) of this section, no school district shall admit to the first grade any child who has not successfully completed kindergarten.

(2) Notwithstanding division (A)(2) of this section, any student who has successfully completed kindergarten in accordance with section (B) of this section shall be admitted to first grade.

(D) The scheduling of times for kindergarten classes and length of the school day for kindergarten shall be determined by the board of education of a city, exempted village, or local school district.

(E) Any kindergarten class offered by a day-care provider or school described by division (B)(1) or (B)(2)(a) of this section shall be developmentally appropriate.

(F) Upon written request of a day-care provider described by division (B)(2)(a) of this section, the department of education shall determine whether certification held by a teacher employed
by the provider meets the requirement of division (B)(2)(b)(iii) of this section and, if so, shall furnish the provider a statement to that effect.

(G) As used in this division, "all-day kindergarten" has the same meaning as in section 3321.05 of the Revised Code.

(1) A school district that is offering all-day kindergarten for the first time or that charged fees or tuition for all-day kindergarten in the 2012-2013 school year may charge fees or tuition for a student enrolled in all-day kindergarten in any school year following the 2012-2013 school year. The department shall adjust the district's average daily membership certification under section 3317.03 of the Revised Code by one-half of the full-time equivalency for each student charged fees or tuition for all-day kindergarten under this division. If a district charges fees or tuition for all-day kindergarten under this division, the district shall develop a sliding fee scale based on family incomes.

(2) The department of education shall conduct an annual survey of each school district described in division (G)(1) of this section to determine the following:

(a) Whether the district charges fees or tuition for students enrolled in all-day kindergarten;

(b) The amount of the fees or tuition charged;

(c) How many of the students for whom tuition is charged are eligible for free lunches under the "National School Lunch Act," 60 Stat. 230 (1946), 42 U.S.C. 1751, as amended, and the "Child Nutrition Act of 1966," 80 Stat. 885, 42 U.S.C. 1771, as amended, and how many of the students for whom tuition is charged are eligible for reduced price lunches under those acts;
(d) How many students are enrolled in traditional half-day kindergarten rather than all-day kindergarten.

Each district shall report to the department, in the manner prescribed by the department, the information described in divisions (G)(2)(a) to (d) of this section.

The department shall issue an annual report on the results of the survey and shall post the report on its web site. The department shall issue the first report not later than April 30, 2008, and shall issue a report not later than the thirtieth day of April each year thereafter.

The committee shall determine the criteria for proposals, establish procedures for the submission of proposals, accept and evaluate proposals, and choose which proposals to approve to become a STEM school. geographic regions of the state so that all students have access
to a STEM school.

The committee shall seek technical assistance from the Ohio
STEM learning network, or its successor, throughout the process of
accepting and evaluating proposals and choosing which proposals to
approve. In approving proposals for STEM schools, the committee

The committee may authorize the establishment of a group of
multiple STEM schools to operate from multiple facilities located

a proposal from the governing body, the committee may authorize
one or more additional schools to operate as part of that group.

The STEM committee may approve one or more STEM schools to

Sec. 3326.032. (A) The STEM committee may grant a designation of STEM school equivalent to a community school established under Chapter 3314. of the Revised Code, or to a chartered or accredited nonpublic school. In order to be eligible for this designation, a community school or chartered or accredited nonpublic school shall
submit a proposal that satisfies the requirements of this section.

The committee shall determine the criteria for proposals, establish procedures for the submission of proposals, accept and evaluate proposals, and choose which proposals warrant a community school or chartered or accredited nonpublic school to be designated as a STEM school equivalent.

(C)(1) A community school or chartered or accredited nonpublic school that is designated as a STEM school equivalent under this section shall not be subject to the requirements of Chapter 3326. of the Revised Code, except that the school shall be subject to the requirements of this section and to the curriculum requirements of section 3326.09 of the Revised Code.

Nothing in this section, however, shall relieve a community school of the applicable requirements of Chapter 3314. of the
Revised Code. Nor shall anything in this section relieve a chartered or accredited nonpublic school of any provisions of law outside of this chapter that are applicable to chartered or accredited nonpublic schools.

(2) A community school or chartered or accredited nonpublic school that is designated as a STEM school equivalent under this section shall not be eligible for operating funding under sections 3326.31 to 3326.37, 3326.39 to 3326.40, and 3326.51 of the Revised Code.

(D) If a community school or chartered or accredited nonpublic school that is designated as a STEM school equivalent under this section intends to close or intends to no longer be designated as a STEM school equivalent, it shall notify the STEM committee of that fact.

(E) If a community school or chartered or accredited nonpublic school that is designated as a STEM school equivalent wishes to be designated as a STEAM school equivalent, it may change its existing proposal to include the items required under divisions (B)(1), (B)(3)(c), and (B)(7) of this section and submit the revised proposal to the STEM committee for approval.

Sec. 3326.04. (A) The STEM committee shall award grants to support the operation of STEM programs of excellence to serve students in any of grades kindergarten through twelve through a request for proposals.
(B) Proposals may be submitted by any of the following:

1. The board of education of a city, exempted village, or local school district;
2. The governing authority of a community school established under Chapter 3314. of the Revised Code;
3. The governing authority of a chartered or accredited nonpublic school.

(C) Each proposal shall demonstrate to the satisfaction of the STEM committee that the program meets at least the following standards:

The fee shall not exceed the per student cost of the transportation, as determined by the governing authority.

(B) The parent or guardian of a student who is enrolled in a chartered or accredited nonpublic school and is eligible for transportation by a school district under section 3327.01 of the Revised Code may decline that transportation and accept transportation from the chartered or accredited nonpublic school. The governing authority of a chartered or accredited nonpublic school may charge a fee under division (A) of this section regardless of whether a student is eligible for transportation under section 3327.01 of the Revised Code.

(C) The offering by the governing authority of a chartered or accredited nonpublic school of transportation to and from the school does not relieve any school district board of education from any duty imposed by sections 3327.01 and 3327.02 of the Revised Code with respect to the chartered or accredited nonpublic school's students.

Sec. 3327.10. (A) No person shall be employed as driver of a school bus or motor van, owned and operated by any school district or educational service center or privately owned and operated under contract with any school district or service center in this
state, who has not received a certificate from either the educational service center governing board that has entered into an agreement with the school district under section 3313.843 or 3313.845 of the Revised Code or the superintendent of the school district, certifying that such person is at least eighteen years of age and is of good moral character and is qualified physically and otherwise for such position. The service center governing board or the superintendent, as the case may be, shall provide for an annual physical examination that conforms with rules adopted by the state board of education of each driver to ascertain the driver's physical fitness for such employment. Any certificate may be revoked by the authority granting the same on proof that the holder has been guilty of failing to comply with division (D)(1) of this section, or upon a conviction or a guilty plea for a violation, or any other action, that results in a loss or suspension of driving rights. Any written documentation of the physical examination shall be completed by the individual who performed the examination.

Any certificate may be revoked by the authority granting the same on proof that the holder has been guilty of failing to comply with division (D)(2) of this section.

(C) Any person who drives a school bus or motor van must give satisfactory and sufficient bond except a driver who is an employee of a school district and who drives a bus or motor van owned by the school district.

(D) No person employed as driver of a school bus or motor van under this section who is convicted of a traffic violation or who has had the person's commercial driver's license suspended shall drive a school bus or motor van until the person has filed a written notice of the conviction or suspension, as follows:

(1) If the person is employed under division (A) of this section, the person shall file the notice with the superintendent, or a person designated by the superintendent, of the school district for which the person drives a school bus or motor van as
an employee or drives a privately owned and operated school bus or motor van under contract.

(2) If employed under division (B) of this section, the person shall file the notice with the employing school administrator or contractor, or a person designated by the administrator or contractor.

(E) In addition to resulting in possible revocation of a certificate as authorized by divisions (A) and (B) of this section, violation of division (D) of this section is a minor misdemeanor.

(F)(1) Not later than thirty days after June 30, 2007, each owner of a school bus or motor van shall obtain the complete driving record for each person who is currently employed or otherwise authorized to drive the school bus or motor van. An owner of a school bus or motor van shall not permit a person to operate the school bus or motor van for the first time before the owner has obtained the person's complete driving record. Thereafter, the owner of a school bus or motor van shall obtain the person's driving record not less frequently than semiannually if the person remains employed or otherwise authorized to drive the school bus or motor van. An owner of a school bus or motor van shall not permit a person to resume operating a school bus or motor van, after an interruption of one year or longer, before the owner has obtained the person's complete driving record.

(2) The owner of a school bus or motor van shall not permit a person to operate the school bus or motor van for ten years after the date on which the person pleads guilty to or is convicted of a violation of section 4511.19 of the Revised Code or a substantially equivalent municipal ordinance.

(3) An owner of a school bus or motor van shall not permit
any person to operate such a vehicle unless the person meets all other requirements contained in rules adopted by the state board of education prescribing qualifications of drivers of school buses and other student transportation.

(G) No superintendent of a school district, educational service center, community school, or public or private employer shall permit the operation of a vehicle used for pupil transportation within this state by an individual unless both of the following apply:

(1) Information pertaining to that driver has been submitted to the department of education, pursuant to procedures adopted by that department. Information to be reported shall include the name of the employer or school district, name of the driver, driver license number, date of birth, date of hire, status of physical evaluation, and status of training.

(2) The most recent criminal records check required by division (J) of this section has been completed and received by the superintendent or public or private employer.

(H) A person, school district, educational service center, community school, nonpublic school, or other public or nonpublic entity that owns a school bus or motor van, or that contracts with another entity to operate a school bus or motor van, may impose more stringent restrictions on drivers than those prescribed in this section, in any other section of the Revised Code, and in rules adopted by the state board.

(I) For qualified drivers who, on July 1, 2007, are employed by the owner of a school bus or motor van to drive the school bus or motor van, any instance in which the driver was convicted of or pleaded guilty to a violation of section 4511.19 of the Revised Code or a substantially equivalent municipal ordinance prior to
two years prior to July 1, 2007, shall not be considered a disqualifying event with respect to division (F) of this section.

Restores the House provision that does all of the following:

--Establishes a category of nonpublic schools called "accredited nonpublic schools" for nonpublic schools that are accredited by the Independent Schools Association of the Central States. These schools must comply with minimum education standards adopted by the State Board of Education, but prohibits the State Board from prescribing additional operating standards.

--Specifically exempts such schools from the state minimum high school curriculum and chartering requirements.

--Maintains current law exemptions from state achievement testing for nonscholarship high school students attending
ISACS-accredited schools ("accredited nonpublic schools"), including an exemption for scholarship students attending such schools from the testing requirements, which also is included elsewhere in the bill.

--Exempts such a school from the College Credit Plus Program as long as students and parents are notified at enrollment that the school does not participate, but if a student enrolls in the school under an Educational Choice Scholarship or Pilot Project (Cleveland) Scholarship, prohibits that student from being denied participation in the CCP Program solely due to the school's nonparticipation.

--Requires a joint committee of the General Assembly appointed by the Speaker of the House of Representatives and the President of the Senate, not later than two years after the bill's effective date, to study the effects of the creation of accredited nonpublic schools.
