examination, or both, as required by the board and at the
expense of the individual, if the board finds reason to believe
that the individual under investigation may have a physical or
mental impairment that may affect the individual's ability to
provide safe nursing care. Failure of any individual to submit
to a mental or physical examination when directed constitutes an
admission of the allegations, unless the failure is due to
circumstances beyond the individual's control, and a default and
final order may be entered without the taking of testimony or
presentation of evidence.

If the board finds that an individual is impaired, the
board shall require the individual to submit to care,  
counseling, or treatment approved or designated by the board, as  
a condition for initial, continued, reinstated, or renewed

opportunity to demonstrate to the board that the individual can  
begin or resume the individual's occupation in compliance with  
acceptable and prevailing standards of care under the provisions  
of the individual's authority to practice.

For purposes of this division, any registered nurse,  
licensed practical nurse, or dialysis technician or applicant  
under this chapter shall be deemed to have given consent to  
submit to a mental or physical examination when directed to do  
so in writing by the board, and to have waived all objections to  
the admissibility of testimony or examination reports that  
constitute a privileged communication.

(H) The board shall investigate evidence that appears to  
show that any person has violated any provision of this chapter  
or any rule of the board. Any person may report to the board any  
information the person may have that appears to show a violation  
of any provision of this chapter or rule of the board. In the  
absence of bad faith, any person who reports such information or  
who testifies before the board in any adjudication conducted  
under Chapter 119. of the Revised Code shall not be liable for  
civil damages as a result of the report or testimony.

(2) If an investigation requires a review of patient records, the investigation and proceeding shall be conducted in such a manner as to protect patient confidentiality.

(J) Any action taken by the board under this section resulting in a suspension from practice shall be accompanied by a written statement of the conditions under which the person may be reinstated to practice.
(K) When the board refuses to grant a license or certificate to an applicant, revokes a license or certificate, or refuses to reinstate a license or certificate, the board may specify that its action is permanent. An individual subject to permanent action taken by the board is forever ineligible to hold a license or certificate of the type that was refused or revoked and the board shall not accept from the individual an application for reinstatement of the license or certificate or for a new license or certificate.

(L) No unilateral surrender of a nursing license or dialysis technician certificate issued under this chapter shall be effective unless accepted by majority vote of the board. No application for a nursing license or dialysis technician certificate issued under this chapter may be withdrawn without a majority vote of the board. The board's jurisdiction to take disciplinary action under this section is not removed or limited when an individual has a license or certificate classified as inactive or fails to renew a license or certificate.

(M) Sanctions shall not be imposed under division (B)(24) of this section against any licensee who waives deductibles and copayments as follows:

(1) In compliance with the health benefit plan that expressly allows such a practice.
