SYNOPSIS

Temporary countywide emergency management program

Section 755.15

Allows a county with a population between 350,000 and 375,000 (rather than 350,000 and 400,000 as in the Senate-passed version) to create a countywide emergency management program via contract with a county sheriff or a chief of a fire department with countywide authority in lieu of a countywide emergency management agency as generally required under current law.
