

Testimony of Karen Mueller

I am a Small business owner in Brunswick, OH. Though hemp is illegal, many companies, either new or existing, are selling hemp products. We, HOWEVER, pulled our inventory in October, 2018, abiding by the law. We have suffered loss of revenue and customers because they can buy these products on the next corner. I am respectfully asking you to lift the ban and allow for a free and fair market. Our company is a friend to our community. We strive to offer the best quality customer service and products. Please resolve this issue and vote in favor of S.B. 57 in a timely manner It's the right thing to do.
