

Chair Hambley, Vice Chair Patton, Ranking Member Brown, and the members of the House Civil Justice Committee, my name is Britney Andrews, I am an Ohio voter and I am submitting this testimony in support of House Bill 369, the Ohio Fairness Act.

I support the Ohio Fairness Act because I believe that every human being regardless of sexual orientation should be treated like a human being. We are not born with hate or dislike in our hearts; it is learned. Passing non discrimination laws will show future generations that there is nothing wrong with people who are different than ourselves.

Please vote yes on House Bill 369, the Ohio Fairness Act.

Thank you for your time and consideration.

Britney Andrews,
Columbus, OH Resident
