

I am wholly in support of denying this Ed choice/school voucher system. I have worked two jobs as a public school teacher, to send my daughters to our Catholic Church school. We are Catholic. We believe in a catholic education. I resent that my tax dollars are used to pay for many students that are NOT Catholic, nor many of the parents don't even work!! I am also opposed to the money that has always been used for public schools, is slowly eroding this system. Our public school deserve to be the best they can be in providing the best education for any child. This cannot happen with our money being sent to voucher and charter schools!!!!
