

Dear Committee,

I am writing to you today to beg of you to continue to allow families in the state of Ohio to be able to have an educational choice for their children.

I am so very grateful to all of you for giving my son the opportunity of a lifetime to have a faith based education. I truly, thank you for that. Without EdChoice, it never would have happened. My son has been able to experience an amazing group of faculty, staff, students, sports and other parents that have a tremendous, loving, faithful common bond that we would not have found in the public school system.

I thank you for your time and again, allowing my son to have a better life.

Valerie Fultz
