

Dear Representatives, I'm sending this email in lieu of my absence.

My son is a 9th grader at Toledo CCH. He averaging a 3.71 GPA and his confidence has improved as well. It is my true belief that if it wasn't for the Edchoice program he would still be lagging behind. Even though we don't qualify for the low income program, we greatly appreciate the funds he receives. As parents, we often preach to our children about choices, do they not have one when it comes to their education? Please do not take this away our children. KEEP THE EDCHOICE PROGRAM GOING.

Thanks in advance.

Lanita Vance
