

To Whom It May Concern:

My daughter is a recipient of the Ed Choice Scholarship. I can say the ability to have her attend Bishop Leibold Schools has been the best gift we have ever received.

I was born and raised in Valley View schools and making the choice to leave was difficult. However when my husband and I bought our first home, it was just outside the school district.

My daughter had been struggling at Valley View, with the changing environment, over crowding and issues with students, we decided that we would enroll her into private school, and upon doing the research discovered she was eligible for Ed Choice. We had moved to Jefferson Township where the schools have been failing for years and years. That wasn't ever a choice.

The hardships Grace had disappeared when we got to Bishop Leibold. Her grades have improved, she's growing socially and thriving. Ed Choice provides an opportunity that would be financially devastating on us as a family, if we weren't given the choice.

Sincerely,

Misty Lynch
