

Dear Sirs,

It is extremely important for me that my child attend Hebrew Academy of Cleveland since no other schools in the area can accommodate our family's needs, and certainly not a failing public school. If you take away Edchoice, you are leaving us with few realistic options to educate our child. I speak on behalf of many orthodox Jewish families who feel the same way... Please consider our needs as Americans, voters and taxpayers when you make your decision.

thank you,

Lena Rodov
