

My husband and I belong to the Catholic community and we sent our daughter to catholic schools from pre-K-12th grade. Even though this was a financial burden for us, we felt that this was a scarified worth making. Once it was time to send our son to school we had no choice but to send him to our public school for financial reasons. We pulled our son from his school in the 6th grade and enrolled him in the Catholic school in our community. We did this for several reasons. One of these reasons is due to the fact that our son was not getting the proper education that he needed. He never had homework, he barely knew how to read and when we reached out to the teachers it seemed that no one wanted to help. We made sure our son received all of his sacraments thought out his time at public school. Once again, tuition was difficult but we had no choice. My son has made many improvements but still struggles to keep his grades up and is still learning new study skills. Now as an 8th grader, we are exploring all of our high school choices. We know that Without Ed-Choice, Catholic school will not be an option.

Please remember the families that truly want their children to have a Catholic Education and can't afford it without the help of this voucher.

Thank you for your time

Jenny Zestermann
