

To whom it may concern:

It has been a dream for us to be able to send all three of our sons to a private school. Ed Choice makes this possible. The conditions of the Brunswick public schools has greatly diminished since we moved here 15 years ago. Our family moved to Brunswick because, at that time, the schools were highly rated. It's so disappointing how they have gone down hill, yet our taxes continue to go up.

It is also very upsetting that after decisions have been made and application fees have been paid the State decides that Ed Choice may not happen. The timing is unfair! Parents now have to scramble to figure out how they can make it work. How can you put so many families in this position? It's just not fair!!

Please reconsider these changes, and leave Ed Choice as it is for the 2020-2021 school year. Take time to review the way schools are graded, and don't rush to a decision for the up coming school year. Please keep in mind, families should have the right to send their children where they will do best. It's not rational to move city to city, wherever the best district is this year. Let us choose where to send our children when our home district fails us.
