

Hello,

As a Christian and a Catholic, having an educational choice for my children enables me to provide the best education to FIT THE NEEDS OF MY CHILDREN.

No state legislator or bureaucrat knows better than I the needs of my children. Parent's having a choice is critical.

My wife and I firmly believe that the Three Rivers Local School District does not provide my children a quality education. Now that Three Rivers Local School District is finally on the most recent list we made sure to promptly fill out the application to apply for EdChoice.

Changing the program at this date is EXTREMELY UNFAIR and poor execution. I ask that you hold implementation of these changes for this upcoming year. This will give the much needed time to implement any important and well communicated changes.

Keeping children trapped in poor skills that are not working for them is nothing more than a waste of taxpayer money.

Thank You,
Marc Schmidt
