

Hello Committee

I hope this letter finds you all well.

My son uses The Ed Choice program. He goes to Corpus Christi Academy in Lyndhurst Ohio. It is a great small Catholic School. We love the small school feeling you get there, and the morals and values our son gets with his school. We could not send him there if Ed Choice was not there for our family.

Now my daughter is entering high school. She has been at a catholic school k-8th grade, that we have been paying out of pocket. (Ed Chioce not available). So this will be the first year we use Ed Chioce for her. That money is the only way we can send her to Villa Angela St. Joseph in Cleveland.

We live in Euclid and pay high property taxes, (\$4025.00). with taxes like that we cannot afford any private high school without The Ed Choice program.

We are working class people, living pay check to pay check and that money is really a god send for us. Please work hard to keep the program, it helps 29 families at my son's school in Lyndhurst. And I am sure it helps many families in the Cleveland area private schools.

Again, thank you for listening and doing your best for our kids in school.
