Writing to committee in support of HB381, Myself and my wife have a hobby of going to gun range about every week as a hobby. We are 71 years old so can't do much else, but our age and medical condition put us in a bad situation if we are required to retreat. We would never intentionally hurt anyone but we don't want to be hurt either. I think all this gun control should go to the source of the trouble, gangs, drug dealers, just criminals in general, not law-abiding Americans.

Appreciate your time in considering this for HB381.
