

No moral person should ever vote for a bill that will enable the continued murder and oppression of Black people. That our legislature would even CONSIDER a bill like this when we have citizens in the streets peacefully protesting this very violence is to spit in the face of the American people.

Does the Republican Party even care anymore? Are you all so obsessed with being fascist Trumpian sycophants that you'll do anything and kill anyone? The GOP told us we had to sacrifice our grandparents to reopen the economy, and now it's fine and cool if we let Black people die without justice. You people don't value human life. You value your own damn power. It makes me sick.

Democrats — you're not exempt from this either. If you're a Democrat and you vote for this bill, you're only proving that the Democratic Party is a rambling, shambling institution that will say anything but stand for nothing.

Any pig that votes for this bill, Democrat or Republican, is a racist. They'll laugh. They'll say "there goes the radical left calling us racist again." Yea, maybe that's just because you're racist, though. Maybe that's because you're content to oversee a White supremacist project that traffics in the devaluation of Black lives. You really have to seal your eyes shut to ignore the rampant racism and anti-Blackness that has polluted America since day 1.

Remember when it was written into our Constitution that Black people aren't even fully people? That they're only a fraction of a person? If you're white you probably don't think about it often. If you're white you probably don't think about how the cops commit state-sanctioned public executions. And if you're white you probably don't see this bill as an extension of that same violence. But it is.

DO THE RIGHT THING - VOTE NO. END THE VIOLENCE. Valuing Black lives is actually really easy. Most of you just don't care. You're not a public servant if you vote for something like this. You're a murder enthusiast who's happy to cater to the far-right. You've turned our country into a playground for neo-Nazis. Is that the company you want to keep?

In closing, vote no, abolish the police, and Black lives matter. And if you vote for this bill you've got blood on your hands.

I'm sorry if my words are a little harsh, but I'm actually not sorry at all. I'm beyond disgusted.
