

Representative Vitale,

Hello. Just want to send a message to request your support for HB401. This very important bill will finally allow local residents to have a voice in the decision to allow or disallow a wind turbine project in their township. In the past it has been very difficult for the "little guy" to have much of a voice vs. these large corporations that are subsidized by our own tax dollars. This will finally give us that opportunity.

Thank you for your support!

Kevin & Nikki Barth

Logan County
