

Representative Vitale,

I write to you today urging your support of HB401. As a resident of Adams Township in Seneca County my family lives in the midst of what may become a massive industrial wind project. Our home which we built 15 years ago on the land my wife's family has farmed for generations is likely to be surrounded by wind turbines. I have attached a map depicting the locations of the 5 closest turbines to our property. Our township trustees, local school board, and county commissioners have all voted to intervene against the Republic Wind Project but this, unfortunately, means nothing. The OPSB has the final say on this project. HB 401 will give us, the people actually living in the shadows of these 600' tall turbines, the ability to have a true voice in this issue. Please help us!

Thank you for your time and consideration of this bill.

Regards,

Rob & Mary Chappell
