Subject: Wind Turbines

Dear Sir: My name is Charlet Rospert, 10318 St. Rt. 269 N., Bellevue, OH 44811. I am writing you today to voice my opinions on the wind turbine projects in Ohio. I am terribly disappointed in the representatives in the State of Ohio. As representatives, they should be REPRESENTING THE PEOPLE of their district. I have not heard of one representative coming to their people and asking questions of how they should vote on anything. We have voted people in office, not to vote as they seem fitting of their own opinions, but what the people want. How can this vote be correct for the people of Ohio if they are not asked about the problems. This fact is very very irritating to me. The history quote "taxation without representation" sure fits here. The problems were then in history and continue today. We need a Boston Tea Party to get some action here!!!!

I do not want a wind turbine in my backyard. This is residential and farmland use, not an energy use. I have invested 25 years into my home. If the turbines are placed close to my yard, as they purpose, my HOUSE will be WORTHLESS on the sale market. Who would buy a home situated with a wind turbine in sight and all the potential problems associated with these turbines. I have a list of facts a mile long to tell you about. I don't think either of us have the time to go over all the mistakes in allowing possession to happen.

I request that you vote against any turbines policies. If you would further want to discuss this situation with me, I will be more than happy to sit and talk with you,.....as it should be with you as an politician.

Thanking you in advance for taking the time to read my letter.

Sincerely yours,

Charlet Rospert
