

#40 Cuptel Green  
2016 Southwest  
Bellevere, OH

To the members of the  
House and Senate of Ohio,

I live in Bellevere, which  
lies in four counties, Erie, Seneca,  
Huron and Sandusky.

Bellevere is also built over  
a karst. We are in a flood zone.  
We already have enough water  
issues.

These wind turbines could  
only increase our problems. They  
most likely will affect the karst  
which will affect our homes. The  
foundations of some of these homes  
are over 100 yrs. old. Even new  
homes will be compromised.

Because I live in town I can't  
vote but my neighbors in townships  
can.

I urge you to show how  
important HB-401 and SB 234  
can be to our town.

Sincerely,  
Cuptel Green
