Re: Support of HB401 and SB234

Dear Ohio Senate and Ohio House of Representatives,

As a resident of Oxford Township, Monroeville Ohio, I am encouraging you to vote in favor of HB401 and SB234.

I believe myself along with all residents should have a voice and ability to vote on the impact of wind turbines and the adverse effects it would have on our daily living conditions. Residents should have the right to decide if we want our solitude and landscape disrupted by mammoth industrial sized turbines, as one would see in large metropolitan societies. Another concern is danger and death to our animal habitat, environmental failure to our well water, and permanent destruction of our farmland. Reduction in property values would ultimately reduce population and create slum and blight.

Please vote in favor of HB401 and SB234. Thank you for serving Ohio and its citizens.

Respectfully,

Cynthia Rogers
