To Whom It May Concern;

As a resident of Ohio, I am concerned about how wind turbines affect people's health and mental well-being, as well as destroying the farmland and the natural views we are accustomed to enjoying.

I support both HB401 and SB234 which will give Ohioans a voice in where wind turbines are placed. We deserve to have a vote to determine if these huge turbines are placed close to our homes.

Please allow the people of Ohio a say in the placement of wind turbines, please pass the "Reineke Referendum".

Thank you,

Helen Duquette
