

11/14/2019

Members of the House of Representatives and the Senate,

I am asking you to support HB401 and SB234. I live in the foot print of the Emerson Creek Project. Nine 652 feet tall turbines will surround my home. This will decrease the value of my property. I will be subjected to restricted life flight services, noise, blinking lights, possible blade failure, and interference with TV and internet reception.

Residents living in the affected townships should have a voice.

Respectfully,

A handwritten signature in cursive script that reads "Kenneth Weisenauer".
