To Whom It May Concern,

I am writing about HB401 and SB234 about the Wind Turbine referendums. Sometimes we lose sight that as representatives we are representing a majority of the people's will. For several years we have felt like our voices are not being heard in our particular areas as to what the majority of peoples' wishes are. These bills will not eliminate all Wind Turbines in Ohio but will allow the people to decide if it is something they want in their community or not. Some areas may decide it is a good thing for them and others may decide otherwise. This will allow us to have that decision instead of it being decided by people unfamiliar with our areas.

Yours truly,

5094 N. Greenfield Road

Willard, OH 44890
