

December 3, 2019

Representative Nino Vitale, Chair  
Energy and Natural Resources Committee  
The Ohio House of Representatives  
77 South High Street  
Columbus, Ohio 43215

Dear Chairman Vitale,

My name is Troy Kagy and I am a full-time farmer in Seneca County, Ohio. I write today to express opposition to House Bill 401.

As a Bloom Township Trustee, I am in opposition of House Bill 401. In addition to my position, I am also a landowner within the Honey Creek Project Area and I strongly believe that the land owners within my township should have rights over the property they own.

Despite hearing multiple positions opposing the wind turbine initiative, I remain in strong support of wind projects. Not only would this project be beneficial to the residents, but it would provide a sustainable improvement to our township; this is something that we desperately need.

Respectfully,

Troy Kagy  
Bloom Township Trustee
