

Please accept the following in opposition to HB 401.

--The cost of renewable energy is dropping fast. Already Ohio has passed a bill that hampers the state's ability to move toward cheaper renewable energy. Please don't pass another one. Ohio's economy can't afford more restrictions.

---Ohio's demographics don't bode well for our health as a state in the immediate future. We have an aging population. Young people aren't staying. Please don't take action that makes us seem like we're looking toward the past rather than the future. I want this to be a place where my children want to live as adults.

Sincerely,

Leah Stewart
