

## Isaac Carpenter's Testimony

May 1, 2019

In regards to the proposed Constitutional Carry bill that is before the Ohio legislature I would like to offer my full support of the passing of said bill. Sixteen other states have already passed similar legislation recognizing the God-given right of self defense and the duty of every American to defend his/her family from enemies foreign or domestic. Based on the fact that more guns does NOT equal more crime, but less, I urge the representatives of the state of Ohio to pass this bill in support of law abiding Ohioans. Please make it easier for decent men and women to defend themselves. I would love to give this in person at the proponent hearing on May 1st.
