

John Darke's Testimony

May 1, 2019

I would like to enter my testimony in favor of House Bill 178 into the official record. I will not be able to attend the committee and testify in person, but I support this legislation. It only makes sense to give law abiding citizens the right to carry a concealed weapon to protect themselves from the criminals carrying weapons illegally. In addition, Ohio already has legal open carry for citizens not otherwise forbidden from carrying a weapon. It doesn't seem to make sense that placing a legally carried weapon under a garment and out of sight should then render its carry illegal.

Respectfully,

John Darke

Cuyahoga Falls, Ohio 44223
