

## Michael Goddard's Testimony

May 1, 2019

My name is Michael Goddard I live in Crestline Ohio now for 4 years. And I use to live in West Virginia and as you. My know they already have constitutional carry. And they have no problems and the training classes have more then double in size . And people back there do not get scared when they see someone carrying a gun. And as far I'm considered our rights don't stop because of someone's fear or stupidity when it comes to guns and like it says in the Constitution shell not be infringed on
