

I urge you to act in the best interest in your constituents (the people of Ohio) and vote AGAINST House Bill 242. House Bill 242 is a blatant attempt to corrode Ohio's proud legacy of home rule, stealing the rights of Ohioans and offering them at the feet of outside corporations. House Bill 242 is clearly a continuation of the anti-democracy, pro-pollution push of SB-210 and HB-625. SB-210 did not survive when given enough time for the public to be aware. HB-625 was shamefully snuck past Ohio in a few short, lame duck days. The will of Ohians, and Americans, is clear. We want to reduce waste and reduce pollution and, when appropriate, we want to make local laws to make that happen. This trend will continue in spite of the efforts of industries who have no interest in Ohio beyond taking its wealth. We invite you to join us to protect the people of Ohio and vote AGAINST House Bill 242.

Steven Gregory  
Delaware, Ohio  
(State House District 67)
