

I am in full support of House Bill 476 protecting land owners from eminent domain regarding Park Districts. I am a family farm owner that is bisected by an abandoned railroad right of way. This railway deed contains reversionary rights to the adjoining land owners "me". With out the passage of this bill I am subject to a lengthy and costly eminent domain battle to protect my given rights an American citizen for a BIKE PATH. This is a rural area surrounded by heavy tourism. Our goal and legacy is needs to be protected as established by our forefathers to maintain our rights as legal property owners. I am deeply committed to this issue. Thank you for this opportunity to express my concerns.
