

Chair Wiggam, Vice Chair Stephens, Ranking Member Kelly, and Members of the Ohio House State and Local Government Committee,

As an Ohioan who is concerned about the effects of the decisions Dr. Acton is making, and based on the fact that we get a lot of "Um, let me look into that for you, I have no idea" answers from her on a regular basis; and given that we are NOT getting real time numbers on which to base decisions on (instead she is fear mongering by sharing cumulative totals every single day), I URGE you to vote yes on HB624. We need full transparency.

Sincerely,

Gina Hayward
Findlay, OH
