

Chairman Wiggam, Vice Chair Stephens, Ranking Member Kelly and honorable members of the Ohio House state and Local Government Committee. Thank you for allowing me to send testimony today on House Bill 624.

My name is Heather Chappell, I am a wife and mother of two beautiful children, and I am writing you today in regard to House Bill 624 and why I believe we need it.

As a concerned citizen of Ohio, I stand for accuracy in data and urge you to vote for House Bill 624. The data that has been reported throughout this pandemic are not accurate and need to reveal more information allowing for clear evidence of how deadly this virus is or is not.
