

Dear Members of the State and Local Government Committee:

My name is Lee Knicely and I've been a registered Republican in Ohio for over 50 years. My home town is Macedonia in Summit County. I'm testifying to let you know of my extreme opposition to the unnecessary HB 680. There is no need for the General Assembly to "reinvent the wheel" when there is a duly elected Secretary of State (who by the way is a Republican as well) who, I understand, has very good plans / alternatives for the November General Election. My recommendation is to follow the lead and direction from the Secretary of State if there is any necessary input / legislation needed from the General Assembly as it appears that the Secretary of State has the best interest of all of Ohio Voters to assure the November General Election is easily accessible for all registered Ohio voters. Please contact me as needed for any further questions.

Sincerely,

A. Lee Knicely
