

# Ohio's Farm Bill Biologists

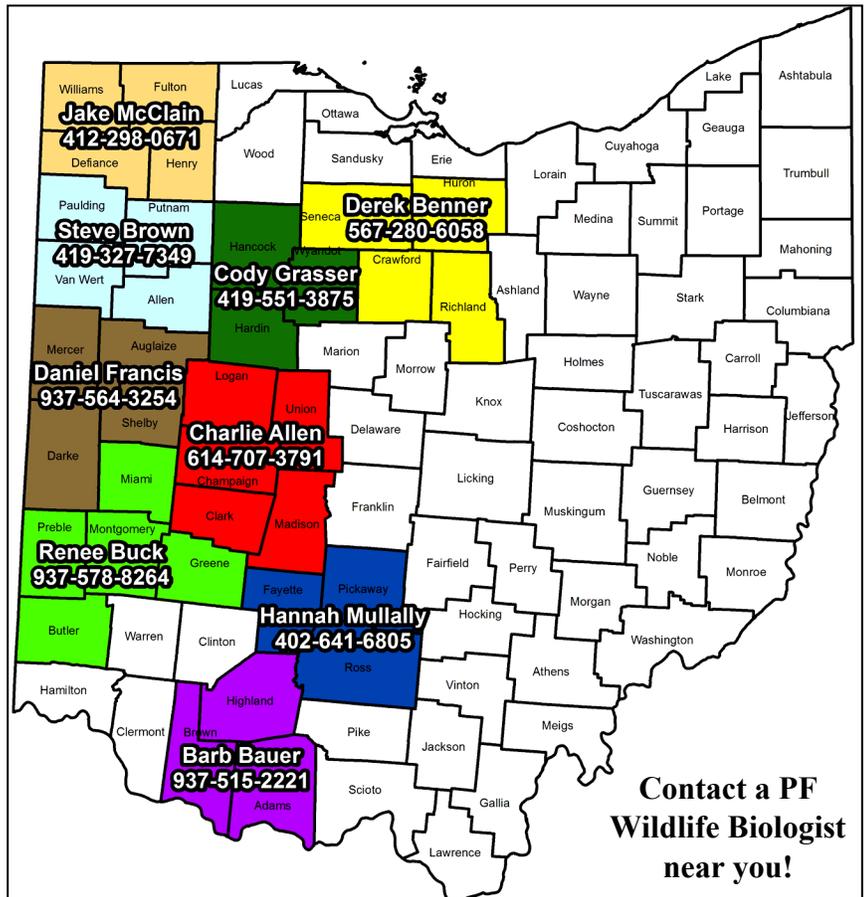

Pheasants Forever and Quail Forever offer expert wildlife habitat and natural resource conservation assistance through their Farm Bill Biologist Program. In Ohio there are 9 full time Farm Bill Wildlife Biologists (FBBs) working for Pheasants Forever. These positions are made possible with support from the Natural Resources Conservation Service and Ohio Department of Natural Resources.

Our professional staff are housed in local United States Department of Agriculture service center offices and are available to provide conservation planning assistance to private landowners, state and federal agencies, and many more conservation partners. We provide wildlife habitat guidance, education and outreach support, and partner assistance across the state.

Through these positions we are able to help implement Farm Bill conservation programs, such as Wetland Reserve Easements (formerly WRP) and the Conservation Reserve Program (CRP), with a focus on wildlife habitat creation, improvement, and management. Whether your land is in a conservation program or not, FBBs are prepared to assist you every step of the way through establishment and long-term management of all types of wildlife habitat. The Farm Bill Biologist Program allows Pheasants Forever to impact more acres of wildlife habitat to help achieve our **CONSERVATION MISSION!**

## FY2018 Farm Bill Biologist Program Highlights:

- ◆ 1,944 Conservation plans produced
- ◆ 9,763 Acres enrolled in Farm Bill programs
