

To Whom It Concerns:

When my family bought property here in Seneca County many generations ago I never thought that others would be so concerned with what I do with it. House Bill 6 would completely take that right away from me; I don't feel that the government should be entitled to tell me what I can or cannot do on the property in my name, and legally mine, especially after it goes through a legal permitting process enforced by the state. I hope the people voting on this bill take into account the opinions of the long-time property owners within the Honey Creek Project area.

Sincerely,

John Stockmeister
