

To: Senate Energy and Public Utilities Committee

As a Bloom Township Trustee, I am in opposition of House Bill 6. In addition to my position, I am also a landowner within the Honey Creek Project Area and I strongly believe that the land owners within my township should have rights over the property they own.

Despite hearing multiple positions opposing the wind turbine initiative, I remain in strong support of the Honey Creek Wind Project. Not only would this project be beneficial to the residents, but it would provide a sustainable improvement to our township.

Sincerely,

Troy Kagy
Bloom Township Trustee
