Senator Steve Wilson, Chairman, Senate Energy and Public Utilities Committee, my name is Brian Kensik who works and resides in the state of Ohio and I would like to show my support for SB234.

This bill gives us citizens a voice to be heard. With Ohio having an appointed board (OPSB) they may not have the best intentions in mind for our residence of this great state. This legislation will regulate distance setback of wind turbine's to property line.

Currently residence of Seneca County, are fighting to protect their hard-earned investment, and as a resident of Lorain county I can only ask myself are we next. This bill would make our vote count and not have to spend thousands of dollars in legal counsel to be heard.

Respectfully,
