

Senator Steve Wilson
Chairman
Senate Energy and Public Utilities
Committee

Senator Wilson,

I would like to quote a very important American that our government in Columbus needs to really stop and think about. Our Government of the people, by the people, for the people, shall not perish from the Earth - Abraham Lincoln.

The State of Ohio needs to live by the thoughts of one of the greatest Presidents this country has ever had and bring the decisions that affect our State back where they belong, to the people. A decision this explosive should not be decided by people who don't live in our community and don't know, or care how it is affecting us.

I wish to support HB 234 and get the vote back to the people.

Thank you,

Jodie L Logan
Hartland Township
Huron Co Ohio

Senator Steve Wilson

Chairman

Senate Energy and Public Utilities Committee

Dear Senator Wilson,

I wish to convey to you my feelings on the 600 ft. industrial wind turbines that our government is pushing on its local citizens. From what I was told, many years ago the State of Ohio took away our voting rights to decide what is good for our counties and townships. As you certainly know, when money is involved, the decision is not always based upon what is good for the area.

This is why I wish to put the vote back to the people where it belongs. We are being told that we should trust them. They only want the best for us. As Judge Judy would say "Don't pee on my leg and tell me it's raining"!

I support HB 234. Get the vote here where it belongs and what happens, happens.

Thank you,

Steve A. Zagan
Hardland Twp Ship
Harrison County

Senator Steve Wilson
Chairman
Senate Energy and Public Utilities
Committee

Senator Wilson,

I am in support of HB 234. My family has lived in Northern Ohio for two centuries settling here in 1818. Never in all these years has our government interfered so horribly in the lives of the people here. The decision to override our zoning laws and allow these 600 ft. or more wind turbines to tower over our homes with little or no regard to what it will do to our lives is heartbreaking.

The decision should be left in the hands of the people. Our country was founded on the premises of the majority vote of the people. Are you afraid the majority won't do what you want them to do?

Thank you,

Brenda Landoll -
Sherman Twp
Auron County

Senator Steve Wilson
Chairman
Senate Energy and Public Utilities Committee

Senator Wilson,

I am writing in support of HB 234. I have lived in the country of Northern Ohio my entire life and it is sad to think our government officials think its ok to take away our way of life to follow the herd. If one jumps in the lake they all should? Is there anyone in Columbus that can make a decision for themselves? Just because environmentalists bully you, you feel it's ok to pass that on to us just to keep them off your backs? Many of you know you are guilty of this.

Please stand up for Ohio. This isn't right for everyone.

Thank you,

Ken Sandoll
Sherman Twp.
Wurron County

Senator Steve Wilson

Chairman

Senate Energy and Public Utilities Committee

Senator Wilson,

I just got done reading our local paper about a poor farmer who is being "bullied" by his neighbors because he wants wind turbines on his property. He says it's good for the State of Ohio. I would believe this if I didn't personally know how much he stands to make! Apex can tell them that they are not allowed to tell anyone what they receive on their contract, but these are little towns, and people talk. Even their family.

The only way this can be helped without destroying our whole community is by passing this bill HB234 and bring this vote to the people!

Thank you for your time,

Jerry S. Meyer
