

12/28/19

Senator Steve Wilson,
Chairman, Senate Energy and Public Utilities Committee

I am asking you to support SB234. I live in the foot print of the Emerson Creek Wind Project. Nine 650 feet tall industrial turbines will surround my home. This will decrease the value of my property. I will be subjected to restricted life flight services, noise, blinking lights, possible blade failure, and interference with TV and internet reception.

Because of the size and scope of this project and the impact it will have on all residents living in the affected townships, residents should have a voice to decide if they want this development in their community.

Respectfully,

Kenneth Weisenauer
